Philosophy Of Fear Is Assailed By MacArthur

Gen. MacArthur Is Continuing Speaking Tour In Texas Today

By BOB CONSIDINE
(I. N. S. Staff Correspondent)

SAN ANTONIO, Tex., June 15.—Gen. Douglas MacArthur flies to the Alamo today to renew his vigorous demand for a change in the administration's foreign policy and the discard of what he terms the "new philosophy of fear."

The 71-year-old hero of Bataan, key figure in one of the more historical congressional debates since his abrupt dismissal as United Nation supreme commander two months ago, expects his journey from Houston to be a sentimental one, too.

To Meet Gen. Wainwright

He will be reunited with some of his oldest military friends, beginning with Gen. Jonathan M. Wainwright, the man he was forced to leave behind when President Roosevelt ordered MacArthur to leave the Philippines in March, 1942.

Gen. Wainwright and many other retired generals who served with MacArthur in wars dating back at far as the Philippine insurrection, live in retirement at Fort Sam Houston, San Antonio.

He will meet with them at a private luncheon in the St. Anthony hotel after he speaks before the Alamo—historic sight of the suicidal fight which a band of Texans waged against Mexican forces in the fight for freedom more than a century ago.

To Cotton Bowl

Then the general will take off for Dallas in his commercial airliner, the Constellation "The Champion," weather another parade and speak at the Cotton Bowl at 10 p.m. (EDT).

He will spend the night in Dallas at the Adolphus hotel and motor to Fort Worth Saturday morning for another short speech, luncheon with Amon Carter, and his takeoff to New York.

The spech at the Alamo, MacArthur Aide Maj. Gen. Courtney Whitney said last night, will be as short as his 13-minute address Wednesday night at Houston and will stress additional aspects of the 36-minute spech he made before the Texas State legislature on Wednesday.

He will lash out again at the proposition, advanced by the joint chiefs of staff, that American armed forces are too weak to be committed to broader battle against Communistic forces.

Last night MacArthur aimed his verbal guns at what he called the

Drive On Dope Peddlers Nets 21 Arrests In New York

NEW YORK, June 15.—(INS)—Police raiders struck in three New York boroughs early today and arrested 21 dope peddlers in a continuing drive spurred by disclosures at a three-day state-conducted inquiry into the narcotics traffic.

Police pledged that "hundreds" will be arrested in New York in an unprecedented crackdown against dope pushers, charged with making more than 6,000 teen-agers drug addicts.

In one of the arrests five detectives, two of them women, fought a street battle to keep a prisoner. Then, with drawn guns, they dispersed a menacing crowd of more than 100.

Bagged in the roundup was an eight-year-old boy who police said was employed as a messenger by dope peddlers.

The drive was sparked by the stories of three girl addicts who testified in the investigation and told of hotels and bars in the Broadway area and Harlem as sources of narcotics.

The arrests were made, however, over a broader area, covering Manhattan, the Bronx and Brooklyn.

New Formula For Ceiling On Wages Likely

WASHINGTON, June 15—(INS)—Wage Stabilization Board members said today that they expect to reach an agreement next week on a higher wage ceiling plan to replace the present 10 per cent formula.

They indicated that the new plan will authorize wage increases without board approval of at least 12 per cent above wage levels in effect on January 15, 1945.

In its effort to agree on a new policy, the board is considering four major proposals for wage ceilings. It is endeavoring to find some formula which will incorporate the main objectives of all these plans.

Chairman George W. Taylor said the 18-man panel will try to reach a unanimous agreement on a new policy. It will be forwarded to economic stabilizer Johnston for approval.

Board members said considerable progress has been made in the locked-door discussions on a new formula.

Switch Sabotaged; Causes Man's Death

PITTSBURGH, June 15.—(INS)—West Virginia, Ohio and Pennsylvania police were asked by railroad officials today to be on the alert for a man they said sabotaged a railroad switch and caused the death of an employe.

The wedge-opened switch derailed an electrically powered signal car near Tridelphia, W. Va., killing E. H. Russell, 53, of West Alexander, Pa., and seriously inpuring William Ronk 53, of Belaire, O., who is in Wheeling, W. Va., hospital.

B & O police furnished tristate law enforcement authorities with a description of the suspect who is beileved headed toward Pittsburgh.

Hunt Bandits Who Got $42,000 At Warren, Ohio

WARREN, O., June 15.—(INS)—Roadblocks were set up throughout Ohio today as police pressed a hunt for five bandits wanted for the $42,000 holdup and abduction of two Copperweld Steel Company employes.

The bandits were armed with at least one Thompson sub-machine gun and other automatic weapons and were driving a stolen car.

The Copperweld employes, Harlan Villers, 29, of Warren, and Tom Trifilette, 49, of Niles, were forced off the road as they were returning by automobile to the Copperweld company from a bank yesterday.

Villers is secretary and Trifilette assistant treasurer of the Aristoloy Federal Credit Union, a payroll savings organization set up by Copperweld employes.

The two had drawn the $42,000 from the Union Savings & Trust Co. bank in Warren. The money was to be used for cashing payroll checks today.

The bandits forced the messengers back into their own car and later released them some three miles north of the holdup spot. The two employes were not harmed but one shot was fired in the air when they were forced off the road.

No Change In Status Of Bus Strike In City

No new developments were reported in the bus strike here, or in Sharon, Wheatland, Farrell and Sharpsville today.

Indications are no developments are likely until after Saturday, owing to the death of the mother of Mrs. Rolland J. Fisher, at East Palestine, O., who is to be buried here Saturday. Mr. Fisher is the head of the bus union's local for the several towns affected by the strike.

Red Jet Planes Again Active

FIFTH AIR FORCE HEADQUARTERS, Korea, June 15.—(INS)—Communist jet fighters made their first appearance over Korea in more than a week today attacking a reconnaisance plane near the Manchurian border.

The lone unarmed RF-80 Shooting Star escaped undamaged from the encounter with 18 enemy jets.

The pilot, a members of the 67th Reconnaissance Wing, reported to Fifth Air Force headquarters that four of the enemy MIG-15 fighters made firing passes at him but he managed to elude them.

Five of the Russian-type MIGs attacked four F-80's on June 6. Since that brief encounter, however, the Red pilots have shown no inclination to challenge United Nations air supremacy.

STRIKES HIT MINES

SANTIAGO, Chile, June 15.—(INS)—Strikes paralyzed all the large Chilean copper mining centers today.

The widespread walkouts occurred after workers declared that the companies have failed to heed demands presented two months ago.

Truman Seeks Further Power To Curb Prices

Toughest Kind Of Controls Needed To Check Inflation

By CHARLES B. SEIB
(I. N. S. Staff Correspondent)

WASHINGTON, June 15.—President Truman's urgent bid for power to impose "the hardest, toughest kind of controls" got a generally cool reception today from members of Congress who are drafting a new controls law.

The chairmen of the Senate and House banking committees—Sen. Maybank (D) S. C., and Rep. Spence (D) Ky.—both had the same non-committal answer to the President's broadcast plea:

"Will Get Out Best We Can"

"We will get out the best kind of bill we can."

Maybank added that "I have my own mind on what is to be the best interests of the people and I must do what I think best."

Another Democrat, Sen. Frear, Del., said what most members of both committees believe—that the President will get slightly more power than he has under the present controls law, but nowhere near what he has requested.

Sen. Capehart (R) Ind., ranking GOP member of the Senate committee, said bluntly that "the President certainly isn't going to get what he asks for."

The comments on President Truman's message were made as the senators began putting the finishing touches on a new rent con-

Make Progress On Plans For New Station

Another step toward the building of a Pennsylvania railroad station in the Seventh Ward was taken today in the court house.

Eugene L. Hoffman, superintendent of the Lake division of the P. R. R., met with county commissioners and city council in a discussion of land price, type of station and other details.

No commitments were made, but sufficient was accomplished to warrant optimism that a new station is possible within the not too distant future.

The county commissioners and city council told Mr. Hoffman they will sell a tract of land 100x300 adjoining the railroad tracks near Crosscut tower for a sum of $400, or they will give the railroad a long term lease.

This providing the railroad shows plans for a station which will be in keeping with the need.

Mr. Hoffman said he would present the offer to the general offices in Pittsburgh. If the offer is approved it is possible a new station will follow.

U.N. Forces Are Pushing Ahead Toward Wonsan

Furious Counter Attacks Are Made By Embattled Reds

By HOWARD HANDLEMAN
(Far Eastern Director, I. N. S.)

TOKYO, June 15.—Embattled Communists threw furious counter-punches today against tank-powered Allied columns threatening to seize the shortest land route across the Korean peninsula and perhaps the port of Wonsan.

United Nations spearheads were thrusting northeast from Pyonggang, captured apex of the enemy's former "Iron Triangle," along the 50-mile road leading to Wonsan on North Korea's east coast.

This mountain rail-highway route bisects the peninsula diagonally for a distance of a little more than 100 miles. It is shorter than the land arteries crossing North Korea's narrow "neck" above the Red capital of Pyonggang.

Under Naval Attack

It slants up from the Imjin river in the Kaesong area, northwest of Seoul, to Wonsan which has been under a marathon Allied naval bombardment for nearly four months.

In Allied hands, Wonsan could be used to resupply and reinforce armies for possible farther advances northward. Wonsan is 90 air miles north of the 38th Parallel border between South and North Korea.

Against the grinding Allied push, supported by staggering numbers of tanks, the Chinese were able to mount only small counterattacks. But the fury of these assaults was enough to stall the UN offensive in the crucial east-central and eastern sectors.

Louis Johnson Again Witness

Former Defense Secretary Before Probers Second Day

By JAMES LEE
(I. N. S. Staff Correspondent)

WASHINGTON, June 15—Louis Johnson returned to the witness stand in the MacArthur dismissal inquiry today amid Republican claims that the former defense secretary has demonstrated that the Korean war is a "Truman-Acheson promotion."

GOP senators said they would press Johnson for further testimony amplifying what Sen. Brewster (R) Maine, described as "clear" evidence that Secretary of State Acheson is "running the defense department".

Democrats insisted that the former cabinet member had provided little new information vital to the probe of Gen. MacArthur's removal from command.

I used to smile when the housewives claimed they were working from dawn till dark, just a gag thought I, for they've plenty of time, for a rest or a snack or a lark. Well let me confess I was mighty wrong, the lady's away just now and we're having a time just getting a meal, it's a job I admit, and how. So from here on in you will hear no more of the housewife with time to play, they have a job that takes time and work, it's 80 today.

Will Rededicate Church On Sunday

Picturesque Wurtemburg U. P. church, located on the Eilwood City-Portersville road, will be rededicated on Sunday during impressive morning and evening services conducted by the pastor, Dr. James M. Blackwood, assisted by visiting clergymen. The debt free church is rounding out 126 years of service to the community. Dr. Blackwood, the present pastor, is shown in the inset.

A memorable event will be marked in the 126 year history of the Wurtemburg United Presbyterian church, Sunday, June 17, when the completely renovated church will be dedicated free of debt during impressive ceremonies.

Starting Sunday at 11 a.m. the interesting program will attract many former members and friends to the church as well as the present congregation to participate in the exercises which have been looked forward to for many months.

The pastor of the church, Dr. James M. Blackwood, will be rounding out 45 years as a Gospel minister during the dedicatory services which are scheduled to extend over Sunday, June 24. At that time, Dr. Blackwood will officially retire but expects to serve as an itinerant or supply pastor as long as his services are needed by the various U. P. congregations.

Started In 1947

The new work recently completed in the church started in 1947 and was just completed a shortwhile ago at a cost of $22,688 exclusive of free labor which makes the total value of the renovation work over $33,000.

To assist in this important milestone of this rural congregation, Dr. J. I. Moore, Synodical superintendent of the First Synod of the West, will preach the dedicatory sermon Sunday morning, using the theme, "Love for God's Church," followed by the act of dedication performed by Dr. Blackwood.

The service continues Sunday evening, when Dr. James H. Blackwood, pastor of the First U. P. church of Indiana, Pa., son of the present pastor, will speak on "Christian Worship." Presentation of gifts and memorials will take place during this latter service.

On Tuesday evening, June 19,

'Rearming Of Germany Now Live Subject'

—Gen. Bradley

WASHINGTON, June 15.—(INS)—Gen. Omar N. Bradley declared today that the rearming of Germany again has become a "very live subject" in U. S. and international military discussions.

Bradley said the matter would be discussed this afternoon by the U. S. joint chiefs of staff over whom he presides as chairman and that he expected further action soon. He said:

"I don't think France is going to agree to anything until after her election Sunday. Everything is hanging fire pending the outcome of these elections."

Bradley told a news conference that the selection of U. S. Admiral William M. Fechteler as supreme Atlantic naval commander under the North Atlantic treaty has not yet been confirmed.

He said the appointment, to which there have been strong British objections, is "still up in the air somewhat."

PHILOSOPHY OF FEAR ASSAILED BY M'ARTHUR

(Continued From Page One)

"allies" of Communism in this country who, "blind to reality," ardently support the general Communist aims while reacting violently to the mere suggestion that they do so.

"Liberals," he said before 20,000 gathered at the Houston Stadium and a countless radio and television audience, "chart a course which can but lead to destruction."

Over booming loudspeakers, MacArthur declared:

"Our nation is young and virile and our future is still before us. All that I have seen since my return . . . points to the fact that we were never so strong, either individually or collectively."

The general maintained that "insidious forces" have created a basis for fear by "spreading false propaganda designed to destroy those moral precepts to which we have clung for direction since the immutable declaration of our independence became the great charter of our liberty."

A new heating plant was installed. On May 8, 1950, remodeling of the auditorium began with the entire auditorium replastered and new pews of white trimmed in red mahogany installed. A modern chancel was also placed in the historic church.

A complete heating plant consisting of gas furnace and hot water radiation for the whole church and educational building was included in the project as well as a choir and organ loft extending into the new part of the building.

Also the sanctuary has been replastered and further improvements will be completed this summer including painting of the ceiling, rebuilding of stained glass windows, painting of the outside of the building and new chancel furniture. The dedicatory services on Sunday will be followed by an inspection tour of the new building.

TRUMAN SEEKS FURTHER POWER TO CURB PRICES

trol law which will permit the imposition of federal rent ceilings in "critical defense areas" by direction of Defense Secretary Marshall and Defense Mobilizer Charles Wilson.

Will Expire June 30

Still to be settled is whether to grant Mr. Truman's request for authority to control rents of offices, stores and other commercial units, and a formula to grant "cost-of-living" increases to landlords.

Both rent controls and price-wage-production control powers will expire June 30 unless extended.

In his appeal to the public, broadcast over radio and television networks Thursday night, the President declared that controls which "bite down hard" on the economy are absolutely essential for at least two more years, "no matter what happens in Korea."

The President said that if Congress follows the advice of the "lobbyists" and permits all controls to die June 30, the result will be runaway inflation and a wrecked economy. This, he added, is just what Russia wants.

Warning that price rises to date would be "only curtain raisers" to what will happen if Congress does not adopt a strong controls law, Mr. Truman said:

"In the next few months, as shortages of civilian goods develop, the danger of inflation will become more and more serious. It will take the hardest, toughest kind of controls to keep prices from going through the roof."

LOUIS JOHNSON AGAIN WITNESS

(Continued From Page One)

testified today that both army and navy chiefs opposed Gen. MacArthur's Inchon landing plan, which Johnson declared was "without parallel for brilliance of conception and execution."

The ex-cabinet member told senators investigating MacArthur's dismissal that Gen. Collins, army chief of staff, and Admiral Sherman, chief of naval operations, objected to the Inchon operation, turning point of the Korean war last September.

Sen. Knowland (R) Calif., brought out that the joint chiefs of staff warned MacArthur last September 7, a week before Inchon, that he had all the forces he could expect and that if he failed in the surprise landing the result might be disastrous.

BOY KILLED IN FALL OFF TRACTOR

were returning to the Edmiston farm, and according to Mr. Edmiston, the boys were apparently jumping up and down on the tractor. He was alarmed for their safety and went to stop the tractor to warn them, when Donald fell off and under the wheel of the sprayer. He suffered a severe fracture of the right side of the head.

Mr. Edmiston carried the boy to his home, and the injured lad was taken to a doctor's office in New Wilmington, from whence he was removed in an ambulance to the hospital.

Donald was born January 17, 1937, near Carmichaels, Greene county, Pa., the son of William F. and Mary Miller Guesman. Besides his parents, and brother, Ronald, he leaves two other brothers and a sister, Robert, George Arthur, and Charmain.

BLACK COATS

PARIS—(INS)—The Paris fashion house of Calixte is showing something new in the way of a beach coat in its summer collection. Made of royal blue turkish towelling, this comfortable coat is cut like a redingote with four deep box-pleats growing out of a shoulder yoke at the back. The coat has wide, tailored lapels, is worn with a large belt and the short, wide sleeves are turned back to form cuffs.

Prior to the 1883 Adoption of Standard Time, there were about 100 different times in use by American railroads.

D. A. R. Members Present Timely Flag Day Program

Lawrence chapter of the Daughters of the American Revolution was entertained in the home of Mrs. Charles H. Johnson, 221 Moody avenue, Thursday afternoon, when an appropriate Flag Day program was presented.

Judge John G. Lamoree of Lawrence county common pleas court gave a scholarly and thought-provoking talk, using "This Is Ours To Keep" as his theme. He said that our flag is a symbol of our freedom, tracing part of our nation's history from the first half of the twentieth century to the present day of confusion. These 50 years have been most crucial in our nation's life. We have grown faster than any other nation.

The speaker added that Woodrow Wilson gave his life to establishing the League of Nations and fostering the Hague Court of International Justice. If his principles had been followed we would not have had World War II. We cannot replace the young men who gave their lives while in service for our country. Our country is now facing the greatest crisis in her history, said the speaker, adding that we do not know what we are fighting for in Korea. England has fallen from her pinnacle of power. We must get back to the principles of our country 200 years ago. Judge Lamoree closed by asking, "Are we courageous enough to keep what God has given us?" The speaker was introduced by Mrs. Gust Sanfilippo, program committee chairman.

Dr. Dale Coulter Caldwell presented Edward C. Book, vocal artist, who delighted with "Smilin' Thru", "Ranger Song" from "Rio Rita", and "American Prayer", being accompanied by Mrs. Jay L. Reed.

Mrs. C. A. Brown, chaplain, led the ritual, while Mrs. W. W. Campbell led in the pledge of allegiance to our flag. Mrs. Reed was accompanist for the singing of our National Anthem. Mrs. Brown gave part of the president general's Flag Day message, closing with a poem, "We Make a Flag".

Mrs. Marvin B. Dinsmore, regent, presided when the following were elected as delegates to the state convention at Harrisburg in October: Mrs. N. H. Keefer, Dr. Dale Coulter Caldwell, Mrs. H. E. Golder, Mrs. Dale Mullen, Mrs. G. E. Muffley, Mrs. J. M. Gardner, Mrs. F. A. Pinkerton, Mrs. A. T. Eckles, Mrs. W. W. Campbell and Mrs. Marvin B. Dinsmore. The alternates are: Mrs. Ray Robison, Mrs. Herman Decker, Mrs. Fred L. Rentz, Mrs. William J. Caldwell, Mrs. R. W. Bell, Mrs. John Bigler, Mrs. C. A. Brown, Mrs. Crawford Lyon, Mrs. Jay L. Reed and Mrs. Earle Cass.

Mrs. Dinsmore reported on the national D. A. R. congress at Washington, D. C.

Lunch was served at a prettily appointed table, centered with red, white and blue flowers. Miss Jennie Morgan, organizing regent, presided at the tea service.

Hostesses were: Mrs. E. B. Russell, Mrs. William J. Caldwell, Mrs. W. W. Campbell, Mrs. Marvin B. Dinsmore, Mrs. H. E. Golder, Miss Jane A. Love, Miss Jennie Morgan, Miss Lillian Perry, Mrs. DeGrim Renfrew, Dr. Mildred Rodgers, Mrs. Ray Robison, Miss Sarah A. Wallace and Miss Rebekah Wilkison.

DeCARBO-WALTERS CHURCH WEDDING

Choosing the traditional month of brides for her marriage, Miss Dolores DeCarbo, daughter of Mr. and Mrs. Anthony DeCarbo, of 310 East Lutton street, exchanged nuptial vows with George E. Walters, son of Mr. and Mrs. Joseph Walters of 1112 Cunningham avenue, on June 9.

The ceremony was performed in St. Vitus church, before altars embanked with ferns and flowers and in the presence of relatives and friends. Rev. Fr. Raymond Heintz officiated and he used the double ring services. During service, appropriate nuptial music was provided by the church organist.

Given in marriage by her father, the attractive bride wore a white satin gown with nylon yoke brocaded with scattered seed pearls, long satin tapering sleeves, and fitted bodice ending in a Cathedral train. Her fingertip nylon veil fell from a bonnet-style crown, and she carried a heart-shaped bouquet of Fleur D'Amour centered with an orchid and ivy streamers. She wore the traditional something old, borrowed and blue. As her only jewelry she wore a strand of pearls, a gift from the bridegroom.

Mrs. Guy Elisco as matron of honor wore a gown of velveray with pink taffeta underskirt fashioned with a fitted jacket. She wore matching mitts and taffeta net bonnet and carried a cascading bouquet of purple iris centered with American beauty roses.

Bridesmaids, Geraldine Cialella, Henrietta Maciarella and Nancy Moore, wore gowns of aqua, fashioned similar to the matron of honor's. Matching hats and mitts completed their ensemble. They carried cascading bouquets of purple Iris and American Beauty roses.

Guy Elisco served the bridegroom as best man. Ushers were John Vargo Jr., George Vargo and Carl DeCarbo, the latter a brother of the bride.

Following the ceremony a wedding breakfast was served at the home of the bride. A wedding dinner was enjoyed at a local dining room. At this time a Catholic Bible was presented the newlyweds, a gift from the bridegroom's father.

An evening reception for 250 guests took place in the King Humbert hall from 7:30 to 11 p.m.

Following dinner, remarks were made by members of the music committee, Floyd Lortz, Fred Sontum and Harold Walton, and by the church organist, Mrs. John Love. Words of regret were expressed about the absence of David Rees, minister of music, as a result of his recent hospital confinement.

It was observed that five members of the choir have been singing with the group since its organization in the new church building following its dedication in 1930: Charles McNickle, Fred Sontum, Mrs. Floyd Lortz, Mrs. Burr Rogers and Edward Bollard; and that six more had been singing for a period of between ten and twenty years: Mrs. Robert Maxwell, Mrs. Herbert Warnock, Mrs. Donald Banks, Martin Wilson, Hasson Polley and Miss Helen Haug.

U.S. PAYROLL INCREASING

If President Truman wants to help prevent what he terms "an unmanageable torrent of inflation" he might take a look at the federal government's civilian payroll. Here plainly is present an opportunity for him to do something useful—something that will be useful not only to the taxpayers but will slow the flow of money into easy circulation.

In the Senate debate over appropriation bills it was revealed the government now has 2,363,758 civilian employees and it is paying them as much as the establishment cost at the very peak of World War II. Their number now is somewhat smaller than it was then but their salaries are higher.

Nearly all departments and agencies are increasing their rolls with each passing month. During April alone the Labor Department added 480 employees and the Federal Security Administration added 328. Obviously neither of these departments is connected with the defense effort.

With the defense departments and agencies needing more and more manpower and, of course, getting it, there would seem to be need for the utmost economy in other directions. But it is obvious that this result would not be achieved by merely talking about it or leaving it to voluntary action.

A sharp cut in appropriations offers the only solution, and Congress must make the cut. All that can be expected from the executive department are requests for higher and higher appropriations and insulting references to congressmen who think taxpayers should receive a little consideration.

RED, BLUE AND TV, TOO

Last January the members of the National Collegiate Athletic Association voted 161 to 7 to make 1951 the year of decision. On the results of a controlled televising of a certain number of intercollegiate football games next fall the NCAA was to decide whether it would gain or lose yardage, over the long pull, by televising college games.

This was one of those "against the wall" decisions. Colleges that depend on the annual football take for the support of their sports program had cold figures to show what TV had done to the gate. The lure of the screen and easy chair was outweighing the traditional trek to the granite stadia.

There were other millions—who never saw a college game in their lives before 1947—who were all for the kind of stuff they had been seeing free. But their contentment did not jingle the cash register.

The University of Pennsylvania now balks at the NCAA experiment, and says it is going ahead and telecast the proceedings at Franklin Field. The NCAA blows the whistle on Penn. The Red and the Blue is no longer a "member in good standing." A couple of traditional opponents, Dartmouth and Cornell, have indicated this fall's games are off unless Penn knuckles under.

Penn has the backing of the Army and Wisconsin and has overwhelming public support, for obvious reasons. But its action certainly has put its opponents on the spot. A year of football-less Saturdays on TV might have resulted in better terms for the colleges from TV sponsors. But it appears that Penn intends to hold that line.

NO RED MYSTERY ANY MORE

Back in the days of the Moscow purge trials the world was astounded when the defendants, one after another, hauntingly confessed to the charges against them. For years afterward there was no clear explanation of the methods by which Soviet barbarians made obviously innocent men confess.

We now know that Cardinal Mindszenty warned in advance that he might confess, and, that if he did, the confession should not be believed.

Kravchenko, in his book, gave the first glimmer of explanation of Soviet torture methods. Others have contributed bits here and there, and now Robert Vogeler, imprisoned in Hungary for 17 months, confirms most other accounts of Communist torture techniques.

Among those he mentions, others also have told about the confinement in a cell with a brilliantly shining light; use of stimulants to prevent sleep; alternate periods of deafening noise and utter silence; questioning for hours on end; the bath, naked, in ice water. There is no doubt, as others have reported, that a great many of the tortured victims are driven mad.

There are no strange, newly discovered drugs. No mechanical devices for distorting the mind. No hypnotism as was suspected in the Mindszenty case. Just calculated and unrelenting torture that weakens the will, menaces the mind, saps the strength and makes even the most monstrous confession seem a release.

These are the barbarians with whom some American liberals say we should "learn to get along."

Russia is reported to be worried over the atomic bomb. The Kremlin probably yearns for a return of the good old days of Yalta, too.

Alexander the Great, according to an historian, never had to shave. No wonder he had all that time to go around conquering nations.

The explosion of Mount Krakatoa in 1883 no longer is the loudest noise ever heard by the ears of man. At a recent Michigan music festival 362 school children played 362 pianos simultaneously.

Battle For 'Floaters' In France

A battle for the "floaters" is raging in France today as campaigning for national elections nears its end, and there is every indication that the politically "unattached" among the electorate will decide the immediate future of the country.

The balloting will be carried out in one of the most complexed and confused situations in French history.

The confusion, strangely enough, arises from a new electoral law passed by the national assembly which was intended to simplify matters.

It enables various political parties to combine their lists. The initial object has been achieved—enabling moderate and conservative groups to pool their resources and potential votes in a solid bloc against communism.

But otherwise parties and political factions are so hopelessly intertwined that it will be difficult for the people to know for whom they are voting.

Clear-Cut Candidates

The only clear-cut candidates will be those of the Communist party and of Gen. Charles De Gaulle. Observers in the French capital are risking no predictions whatever. No one would be surprised to see many persons voting communist or De Gaullist rather than plunge into the uncertainty of a political "melange"—as the French call it—but it is generally believed that the country is safe from communist political domination.

One of the strangest and most unexpected factors that has erupted from the boiling political pot is a new grouping of parties and politicians that calls itself the Fourth Force.

It consists of parties normally cconsidered radical—that term has a different connotation in French politics than in any other—and right wing groups such as the independents and the peasants.

Fourth Force

But as against the militant, controlled economy favored by Gen. De Gaulle, the Fourth Force stands for free enterprise and wants to go back to pre-war days when government restrictions were comparatively light even though to American tourists France appeared to be a mare's nest of bureaucracy.

This Fourth Force is headed by a man whose name once was on the lips of all.

He is Edouard Daladier, known as the "Bull of Vaucluse" who signed the Munich agreement for France.

Although at the time Adolf Hitler was said to have admired Daladier for speaking up while Neville Chamberlin accepted the nazi deception without blinking, the Frenchman was rewarded by becoming one of Germany's first captives and lived out the war in a concentration camp.

Claims Victory

While political commentators are more or less silent, Daladier claims to be confident of victory.

In a broadcast calling for return to free enterprise, he predicted that the Fourth Force would elect 200 deputies and thus become the largest single party in the chamber.

If this should happen, the fate of the Schuman plan and other far-reaching plans for European cooperation which inevitably increase governmental powers is problematical.

He may be depended upon, however, to make things hot for the communists. Daladier outlawed the party entirely when he was in power as premier in 1939.

De Gaulle also has promised to put the Reds out of legal existence if his candiates win.

But Daladier insists that what De Gaulle wants to do is to "exhume the old constitution of Napoleon III" and destroy democracy in France.

To make the political situation more complex, Daladier's coalition or rightist parties joined the major bloc against communism, yet it is presenting separate candidates wherever the law allows it to do so.

Dispatches from Paris indicate that Sunday will be a Sabbath of headaches in the capital and throughout France. But from it is bound to emerge a result of perhaps singular importance to the future of Europe.

Just Folks

EASY DEDUCTION

I'll say no Sherlock Holmes am I,
For countless clues escape my eye.
I could not tell from bloodstains small
If was the murderer short or tall,
Or from the lining of his hat
Deduce that he was thin or fat.
But, I can name the one who leaves
The spots upon a mother's sleeves.

I'm no detective shrewd and proud
With analytic powers endowed,
But show me stains upon a dress
"Who done it" I can promptly guess.
And sharp enough I think I am
To name them—spinach, gravy, jam—
And say offhand, to one and all,
Those marks were made by fingers small.

When on a lady's sleeves I see
Such blotches, I am sure that she
Is married, and I'm plainly told
She has a child 'bout one year old;
A high chair at the table stands
From which two eager, sticky hands
Have reached that mother's dress to spoil—
Although I am no Conan Doyle.

The Parent Problem

By Garry C. Myers, Ph. D.

BEGIN READING EARLY TO CHILD

Over the years I have been entreating parents to read to young children, beginning before the child is two years old and continuing far past the time when he enters school. Judging from the increasing thousands of parents who have written me enclosing a self-addressed stamped envelope for my bulletin on this subject, I infer that the practice of reading to little children is growing rapidly. There are so many lovely books at moderate prices appearing for this purpose. There are also several good magazines for young children.

But some mothers write that their child, two, three or older, won't stay still long enough to be read to, and that they have given up trying to win his interest in listening. Though I try to help these mothers see that they have not tried hard enough and often enough, they are not always convinced.

Nursery Rhymes

The wise mother begins to prepare her baby to enjoy being read to early in his first year. She sings lullabies to him, she says short nursery rhymes to him, and talks softly to him a great deal about what she is doing while dressing, bathing, cuddling or rocking him. Very early she delights him with finger plays.

As soon as he begins to look at pictures in a magazine or book, she talks to him about them. Soon she shows him lovely pictures which illustrate a few rhymes or prose sentences. She puts the book or magazines away as soon as his interest lags but brings it back again and again later. She may do this scores of times. Before she realizes it she is talking to him about the picture in the words on the page near it she is reading. As gradually as the dawn breaks into day, this little child is ilstening while he looks. What he sees gives meaning to what he hears and what he hears enriches what he sees.

Earlier Times

If you have a child as old as 3, 4 or 5 who, at a few earlier times, has not seemed to want to ilsten while you read, or seems too jittery to be still long enough, do this: Have an attractive book of rhymes or easy story on hand. When you and he are serene enough for him to let you hold, rock or cuddle him a bit, calmly open the book before him. Then if he looks at a picture for a few moments, read about it. If he wriggles and wants to get down, don't hinder him. Wait for another favorable moment. Try him again. Keep on trying from time to time, turning to the picture he responded to before. Gradually he will listen longer and with more stillness and obvious pleasure.

But don't press him to stay with you longer than he likes. Even if he wriggles much or wants to walk about or play with his toys while you read, calmly put the book away. Let him learn that you won't read while he wriggles much or moves about. Trust that he will be so eager to see the pictures and hear about them that he will choose to be still for a short while, at least. In this way you train him not only in mental concentration but also in physical concentration, about the finest education he can have.

From Me To You

By MESEEALL

Years ago . . . not so many really . . . the town and all towns were doing very little business . . . Not many people working . . . so some of the population hit upon the idea that a golf course might appeal to the men and women . . . a golf course that could be used for a few cents . . . And from this thinking and planning came what is now known as Sylvan Heights . . . a city-owned and operated public golf course. During the years, thousands and thousands of games have been played on this course . . . and the city can be proud of its golf course for it's a mighty good one.

* * *

Some mighty fine New Castle golfers have been made on this city-owned links . . . Maybe they haven't hit the really big time circuit, but they have been good enough to give the big timers some rough times. We are proud of these men and women . . . and we are proud to point to the Sylvan Heights course and say . . . that is our golf course . . . 18 fine holes.

* * *

On July 4th . . . The recreation board will bring to New Castle a well known golfer . . . one who has been playing in these parts recently . . . and a golfer that all who attempt to play the game will want to see in person. Sam Snead is the big timer . . . there has been much to do about who will make up the exhibition foursome . . . a report has just reached this desk that a playoff will be held shortly . . . and two men will be winners . . . these two with the City Champion Schneider will join Snead for the big event . . . notice that this is different than originally planned . . . so golfer make plans to buy your ticket for the holiday event early . . . and assure space on the links. Indications are that with three local top-flight golfers and Sam Snead battling it out . . . a record crowd from out-of-town will be on hand. Maybe you don't realize it . . . but New Castle stands high in golfing circles and our local players have many followers in Erie and Pittsburgh.

As A Neighbor, He Doesn't Look So Peaceful

Washington Calling

(By MARQUIS CHILDS)

Law Should Be Repealed

WASHINGTON — According to that learned doctor of philosophy, Senator Paul Douglas of Illinois, the disease of administrativeitis has spread its blight over large areas of the Washington bureaucracy. In a recent speech Douglas analyzed two phases of this menacing disease.

One might be described as just plain decay — the government agency lapses into a stale and profitless routine. The second form that administrativeitis takes is more complicated.

An agency is set up to regulate a monopoly or near-monopoly such as the railroads. Gradually it becomes infiltrated with representatives of the industry to be regulated and they proceed to use the government for their own special purposes.

The airline industry, for all its extraordinary growth, is comparatively new. Yet the infiltration process appears to be taking place in the Civil Aeronautics Board, which is charged with regulating the industry. At any rate, the industry seems to get just about what it wants out of goverment.

One of Safest Rules

Defying that safest of all Senate rules about not sticking your neck out, Senator J. William Fulbright courageously dug into the Reconstruction Finance Corporation and exposed some unsavory business charged up to the taxpayer. Briefly, the Fulbright subcommittee inquired into loans proposed for Northwest Airlines.

Chairman Fulbright was questioning Harold A. Jones, then a member of the Civil Aeronautics Board, on the importance of the subsidy to the airlines that is concealed in the mail pay they receive. Jones offered the "guess" of the Postmaster General that the subsidy was one-third of the total amount. Fulbright then brought up instances in which he suggested that CAB had bailed out inefficient lines. The following exchange occurred:

Fulbright: Those were cases in which the mail pay was a very substantial amount! where they not? That is always in the picture.

Jones: It is always in there and I imagine the creditors did not pursue the road to bankruptcy because . . .

Fulbright: They thought you would bail them out?

Jones: They thought we would bail them out.

Underwrote Loans

The RFC subsequently underwrote bank loans to Northwest Airlines totaling $21,000,000. Of this amount $4,790,000 has been repaid.

As Fulbright pointed out at the time, the fact that CAB had to certify to RFC that this was essential gave the Aeronautics Board a vested interest in seeing that the line was kept solvent. The board is responsible for fixing the amount of mail pay to individual carriers.

On April 11 the board authorized for Northwest for transporting the mail over domestic routes $14,091,574 for the period from December 8, 1947, through December 31, 1950. This represents, in part, an addition to earlier payments made to the line FOG the same period.

For its trans-Pacific operation Northwest was awarded $14,869,000 covering the period from September 26, 1946, through December 31, 1950. This amount is less than what the board had already awarded the line for covering the routes flown in the Pacific.

Now these sums may have nothing to do with the fact that CAB, in effect, committed itself on Northwest's transaction with RFC. But with Uncle Sam in a dual role—as lender and guarantor of the loan—it is hard to see how efficiency and economy can be promoted.

To Separate Subsidy

Senator Edwin Johnson of Colorado, chairman of the Senate Commerce Committee, has now introduced a bill proposing to separate subsidy from air-mail pay on both domestic and international routes. This is a step long urged by the Hoover Commission on reorganization of the government. The Johnson bill, however, includes specific mail-pay rates rather than providing that the lines be compensated for carrying the mail plus a reasonable return on investment. The latter method is essential, in the belief of many who have studied the problem, to insure both economy and efficiency.

So much needs to be done. In private senators do not hesitate to talk about the connections, the pull and the favoritism that riddle the present regulatory system. In spite of prodding and needling on the necessity for a thorough investigation of politics and deals in the shipping and the airlines industries, Johnson has determinedly looked the other way.

The Civil Aeronautics Act was intended to encourage limited competition through government regulation. If this is not possible, then the law had better be repealed and we would at least save some government salaries and be spared the gobbledygook of regulation that does not regulate.

One Man's Opinion

By Walter Kiernan

We are indebted to Mr. Truman for restoring the mustache to the bench with Judge Murphy and Judge Medina . . . Too many persons have been cleaned by clean-faced justice.

Even the supreme court looked better when the beavers outnumbered the bare faces, and the majority decisions were more sound though whiskered.

There was nothing political in these appointments . . . the President apparently thought it only fair to balance a secretary of state who would not "turn his back on Alger Hiss" with a judge who, as prosecutor, would not turn his back on the evidence against Hiss.

And Judge Medina was rewarded for cooking all those "red herrings" Harry mentioned in earlier statements.

New York City residents are sorry to lose Murphy as police commissioner . . . He was the third biggest tourist attraction in town coming right behind Empire State and Radio City neither of which have mustaches.

In his capacity as judge we hope not to see him again . . . except at a distance.

It seems that nature dolls up some kinds of food so that they look good to eat.

A radish is that kind of a guy.

He doesn't know much about the vitamins and other good things in it and he doesn't care much either.

Mom and Dad plant carrots and radishes and spinach and celery and lettuce and cabbage and beets and a lot of other things.

Butch helps to do the work and learns the easy way.

He likes the stuff better when he grows it himself.

Twin Serpents

(By HOLMES ALEXANDER)

WASHINGTON, D. C., June 15.—Removal from office of Secretary Acheson isn't, of course, going to remove the twin serpents which have to be strangled if America is ever to become the Hercules of world power, the champion of all free peoples.

The next Secretary of State will have a short period of bipartisan support, but there is no way to spare him the struggle with those two serpentine problems—neutralism in Europe and nationalism in Asia. Until these hostile monsters are overcome, or at least subdued, there is no chance whatever of performing the global leadership which we have elected to undertake.

European neutralism is what Gen. Bradley encountered on his recent visit to the continent which we are pledged to defend under the North Atlantic treaty. The spirit of apathy and fatalism there is not new, but it is being newly discovered at this period when we are moving from economic aid to military rearmament. Some weeks ago Will Clayton, just back from Europe, held a cocktail-interview at which he told a dozen reporters that the Marshall Plan nations are still without faith in their own ability or even in our intentions to save Europe from the Russians. Charles Wilson found much the same lack of will to grind the American-given plowshares into swords, and there are a number of foreign newspapermen in and around town who confess the same forebodings. One young student of journalism from Germany put the facts as follows:

Simply Are Against War

"There are millions of ordinary people in Europe who are against both Russia and America simply by being against war. They are not in the least interested in who wins or loses the next war; they only want to be left alone, and they will not fight or work for or against anybody."

This is neutralism at the grass roots. It is poisonous to our efforts, however high-minded and generous, to win a following for American leadership. A neutral people can be conquered, as the Russians surely know; but a neutral people can hardly be forged into a grand military alliance, as our policy calls for. Acheson, who has always been at his best when dealing with Europe, has done as well as any successor can hope to do under the give-away policy. Curiously, the most fight-minded nations in Europe are the dictatorships of Yugoslavia and Spain, the nations to which we have given least and from which we have demanded next to nothing.

Asian nationalism, which takes the form of isolationism and anti-Western suspicion, is the subject of an unpublished State Department study which has come into my hands in typescript form. Acheson's successor, whoever he is, will get very little encouragement from this study. What we're up against in the Far East and Middle East seems to be a series of unwritten Monroe Doctrines—Asia for the Asiatics—which are of the same grassroots quality as European neutralism.

Did Not Use Document

Acheson did not use this document in his testimony before the Russell committee, but it suggests an undisclosed reason why the State Department has opposed carrying the Korean War to China, even by air and naval bombardment. In terms of world leadership we cannot afford to be the one western nation which has humiliated both Japan and China, the two great Asian nationalities, within a single decade. It is all very well to plead that we "liberated" the Japs from militarism and the Chinese from Communism, but these fine points of language are lost on the Orientals who have visible proof that foreign devils are still their conquerers. There is evidence that the Orientals never loved us better than during the terrible weeks last summer when the North Koreans were seemingly driving us into the sea. Nowhere in Asia have American-trained natives fought as bravely and as well as those who are now hopped-up with the Communist indoctrination.

These Are Unwelcome Facts

These are unwelcome facts, bruising to our pride, but they are inescapable. Nationalism in Asia has always been an anti-Western factor and today is a major hindrance to American leadership. In Korea, which is not a nation, we are fighting off an Asian imperialism; but in Indochina and Malaya we are supporting the last remnants of Western colonialism. We can, no doubt, explain all this in complex terms of international politics, but 85 per cent of the Far East peoples are illiterate; they only know what they see and hear—the march of Western armies.

Strangle the twin serpents of neutralism and nationalism? Well, that is the task we have undertaken when we set up as leaders of militant internationalism. It is not beyond imagination that the 300 million people of free Europe could be made to see that their apathy will not be tolerated, certainly not rewarded by more aid or protected by more American troops. India, to name only the big postwar nation of Asia, certainly owes us more than she has ever contributed to the Korean effort. Sometime soon we'll have to get tough, or else retire into neutralism and nationalism ourselves.

Looking At Life

By ERICH BRANDEIS

One of the defects in today's world is college professors.

Not that I haven't the highest respect for the profession. Most of its practitioners are admirable citizens and do a fine and useful job.

But too many of them sit in ivory towers and have entirely too little contact with what is going on outside.

They move in restricted circles and have to maintain social standings completely out of proportion to their incomes. Environment, background and traditions make intellectual snobs of them.

Then some of these frustrated fellows sit down and write pessimistic books, based not on facts but on their own inhibitions and fallacies, and hang crepe on the doors of their students and the world in general.

Unfortunately a lot of people think that everything said or written by a professor is the gospel and the law. Few of us ordinary folks who haven't spent as many years within the cloistered walls of colleges and universities nor given so much time to books, dare contradict them.

A book just published, entitled "After the Lost Generation," illustrates my point.

This book, written by John W. Aldridge, a young professor at the University of Vermont, drools pessimism.

It drools it so much, that the review in one of New York's two most important book sections, is headed as follows:

"ALL THE DISILLUSIONED YOUNG MEN

"From Hemingway to Mailer, the Mood

"Persist That Life Is Meaningless."

Let me quote a paragraph from the review, which was also written by a college professor—Robert Gorham Davis, associate professor of English at Smith College.

"For Aldridge," says Davis, "the discovery that modern life is meaningless was made by the first generation, whose illusions were destroyed by the war, and confirmed and repeated by the second generation, which had already learned, from reading the works of their predecessors, NOT TO HAVE ANY ILLUSIONS."

That, of course, is stuff and nonsense.

I belong to that first generation of which the reviewer speaks. I still have illusions and so have many of my contemporaries. To us life today has more meaning than ever before. More and more is to be done. More problems arise and must be solved.

I make it a point to keep in close contact with that "second generation," which in Davis' opin-

State Police Say:

In investigating accidents involving a car and a pedestrian it has been found that in most cases the pedestrian was unfamiliar with the operation of an automobile. He never considered the feet per second a car travels at high speed, and he misjudges the distance of an approaching car. For example, in the time it takes him to cross a highway of average width, a car traveling at 50 m.p.h. will travel 300 feet, the length of a football field. Too often the pedestrian depends on the driver to yield the right of way.

Predict Russia May Present Some New Big Four Proposals

PARIS, June 15—(INS)—French diplomatic sources predicted today that Russia may present some new proposals before the week is ended to the conference of Big Four foreign ministers' deputies.

The parley which began March 5 has been deadlocked over the inability of the West and Russia to agree on an agenda for a full-fledged conference of foreign ministers.

The main stumbling block is Russia's demand for inclusion of the Atlantic Pact and American bases in Europe.

Diplomatic observers predict a Russian proposal for an early "peace meeting of the Big Five," which would include Communist China. This is expected as soon as it appears clearly that a Far East conference as suggested by Russia is impossible.

The belief is that the Russians, after denouncing the West as responsible for failure for all Soviet "peace proposals," will make a "final" dramatic appeal for a Big Five session as a last recourse "to save the world from aggression."

Federal Mediator Here In Bus Strike

Charles R. Ward, Federal mediation commissioner, said late Thursday he would use every power of his office to speed the end of the bus strike.

"We want to get the buses running again," he said. "I intend to ask the international head of the union and the owners of the company to sit down with me and work out a solution of the problem," he continued.

Mr. Ward left New Castle Thursday night after an unsuccessful attempt to find Rolland Fisher, president of the local union. He called upon Samuel Friedman, manager of the bus company, but made no statement as to the outcome of the interview.

Mr. Ward expects to be back in New Castle in a few days.

ion has learned not to have any illusions.

Don't these professors UNDERSTAND their students? Those modern youngsters are so chuck full of illusions, of hopes, of aspirations, of resolves to make this a better world that NO adult can keep up with them!

A lot of these "disillusioned" writers are really psychopathic cases. Many of them are disillusioned because they have had dreams of greatness, of fame, of riches in which they have been frustrated.

Fortunately this country is not made up of WRITERS and PROFESSORS but of DOERS.

Here in America the ILLUSIONS of the young of each generation become ACTIONS and ACHIEVEMENT. While the DELUSIONS of the DISILLUSIONED become coffins of the mind.

British Sub, Long Missing, Is Located

LONDON, June 15.—(INS)—James L. Callaghan, parliamentary secretary to the admiralty, announced in the House of Commons Thursday thatt he submarine Affray, missing since April 16 with a crew of 75 aboard, has been located at the bottom of the English Channel.

The submersible was found about 200 feet from the water's edge in so-called "Hurd Deep" 40 miles southwest of the position where it supposedly made its fatal dive.

The Affray's diving instructions called for descent 30 miles south of the Isle of Wight.

Recovery of the sunken vessel is problematical owing to its position.

No Hope Of Curing Alcoholism With Drug Claims Specialist

ATLANTIC CITY, N. J., June 15.—(INS)—An authority on mental health claimed today there is no hope of curing alcoholism with a drug.

Dr. Edward A. Strecker said excessive drinking is a psychological defect rather than one of "tissue damage" and should be treated with what he described as re-education and mental therapy.

The noted health specialist hit at "sniffing wives" and emotionally possessive mothers" who, he said, try to "watch, follow, protect, bribe and punish" alcoholics.

Dr. Stecker said such people, however good their intent, "are of no help in the treatment of pathological drinkers.

Near Record Milk Production In State In May Reported

HARRISBURG, June 15.—(INS) Pennsylvania cows produced 591,000,000 pounds of milk in May, a near record amount for one month.

The State Agriculture department announced today the total was 13 per cent above April and a million pounds short of the record for any month established in June, 1950.

The department reported a new record for egg production was set for the first five months of the year when the output was recorded at 1,620 million.

The 322 million eggs laid in May was credited by the department for establishing the new mark.

Ensign's Commission Awarded Borowski At Pensacola Air Base

PENSACOLA, Fla.—Navy wings of gold now adorn the uniform of Ensign Raymond J. Borowski of the United States navy. Having successfully completed his flight training, he was designated a naval aviator and was awarded his commission recently by Rear Admiral F. M. Hughes, chief of naval air basic training, during ceremonies at the naval air station, Pensacola, Fla.

Ensign Borowski, son of Mr. and Mrs. C. Borowski of 1707 Hanna street, attended Carnegie Technical college prior to entering the navy flight syllabus.

He began his active flight training in December of 1949 when he reported to the U. S. naval school, pre-flight, at NAS Pensacola where he completed a strenuous schedule in military, academic and physical training. From pre-flight he was advanced to basic training which consists of primary, aerobatics, instruments, gunnery and tactics and was climaxed by six take-offs and landings in his SNJ "Texan" trainer aboard the aircraft carrier USS Wright.

He was then sent to advanced training at Corpus Christi, Texas, for a four-month syllabus in combat type aircraft. After this he returned to Pensacola to qualify aboard the USS Monterey in combat type before receiving his wings.

Ensign Borowski has been ordered to the jet training unit, Whiting Field, Milton, Fla., for further training before reporting to the commander air forces, Pacific Fleet, for assignment to his next duty station.

Fox To Continue Specialized Work In Out-Door Course

Owen Fox, naturalist, and supervisor of the City Parks, will continue his very specialized work with the adults who are taking the Girl Scout out-door course.

Monday, June 18, the group moves to Gaston Park. In contrast to the stick cookery tried last week, the group will experiment with trench fire and deep pit cookery. There will be chicken and potatoes baked in blue mud and a demonstration of bean hole cookery.

Mr. Fox will personally conduct the group through those portions of the park which will be used for Day Camp. Possible trails will be laid out for use in troop hikes and Day Camp.

The group will meet at 1:30 p.m. sharp to prepare the fire and make dinner preparations. Dinner reservations must be made through the office by 9:30 a.m. June 18 for everyone expecting to stay for the cook-out including those who can not attend until after five o'clock.

There will be a campfire program of songs and more talk on getting acquainted with the park.

All adults, Senior Scouts Program Aides, and those who will help with Day Camp are expected to attend.

SMOKING LURE VETOED

DENVER, Colo.—One of the lures of Denver theaters may bow to fire precautions. Fire Chief Allie Feldman urged that the city council adopt a law prohibiting smoking in theater balconies. Smoking in balconies long has been a lure of Denver movie theaters.

J. W. Knobloch At Philadelphia Base

J. W. Knobloch of 1026 Dewey avenue, electrician's mate, second class, and member of the U. S. Navy Reserve, has assumed his duties assigned on the USS Reoboth, stationed at the Philadelphia navy base, Philadelphia, Pa.

During the past weekend he was visited by his wife, Mrs. J. W. Knobloch; his mother, Mrs. W. J. Knobloch of 373 Chestnut street, and his sister and brother-in-law, Mr. and Mrs. Joseph Nemeth, R. D. 3.

Mr. and Mrs. Nemeth have returned home but his mother and wife have extended their visit for an additional ten days. They are the guests of Mr. and Mrs. Robert M. Young of Norwood, Philadelphia. The latter are former residents of this city.

GREASE SPOTS

NEW YORK — (INS) — Grease spots should be removed from clothing before it's stored for the summer. The reason is that some oils become darker colored with age and are almost impossible to remove once they've "set" in a fabric.

Outlook For World War III Is Discussed By Babson

By ROGER W. BABSON
(Copyright, 1951, Publishers Financial Bureau, Inc.)

NEW YORK CITY, June 15.—During the past few days I have talked with some important people here regarding the possibility of World War III—and when it may be expected.

No War This Summer In Europe

My financial friends insist we have nothing to fear during this summer of early fall. The chief assets of Russia and her satellite nations of Rumania, Czechoslovakia, Poland, etc., are their crops, especially their wheat. Hence, Russia will not start World War III until these crops are gathered, transported, distributed and safely stored.

Roger W. Babson

My military friends go further and explain that Russia will not start World War III until the rivers of eastern Europe freeze over so her supply lines cannot be cut by our airplanes bombing bridges. You will remember that the Chinese invasion of Korea did not occur until the Yalu river froze over; but that now the invasion has pretty much stopped. Broken supply lines are apparently licking the Chinese.

Coming Winter Critical

The above means that we have nothing to fear from Russia before winter comes. This winter, however, will be a very critical time, especially as the Russians are more accustomed to living, moving and fighting in winter than are the U. S. forces or the Europeans. It is also said that atomic bomb operations can be more effective in winter weather. Russia may start World War III this winter.

The Russians further realize that the United States and the Allies are now arming at a more rapid rate than the Russians can possibly meet. Russia can raise more men than we and our Allies, but Russia cannot produce airplanes, tanks, guns and other war supplies as fast as we can. All of this leads me to believe that, if the Russians do not strike early in 1952, they have decided to forget World War III for some years to come and await further political developments.

Stocks, Bonds and Commodities

Business and investing may remain on a dead center for the next six months or more. There should be no important price changes until the spring of 1952. If Russia has not started war III by that time, there may then be a letdown in business and prices. Certainly, taxes would not be increased further. But, if Russia should strike next winter, taxes are sure to be raised again.

As to general business during the remainder of this year, I look for a lag this summer during the "tooling up" period when industry is switching from peace to war work. This may be accompanied by some unemployment. By fall, however, business should again be good. This uplift should continue throughout the winter whatever Russia decides to do. All skilled workers will be in greater demand, even at higher wages.

Presidential Election Next Year

Added to the above comments, do not forget that another national election comes next year. If Mr. Truman can go to the voters under the slogan "I kept you out of war," he may have a fair chance of re-election. Therefore, the entire administration will try to delay World War III until after 1952, which may result in pushing it indefinitely away. Do not sell Mr. Truman "short" yet—especially, if the fighting in Korea stops. This does not change the importance of the prediction that this coming winter will be a very critical period.

But, personally, I go further and say "anything can happen during the years ahead, from a devastating war III to world peace and a 'Golden Age'." This means that the most important program is to so plan our family's education, business and investments that we will be able to get on "some way whatever happens". This is a goal very important to pray and work for this month of June as our young people are now graduating from schools and colleges.

Union P.T.A. To Have Annual Picnic

Annual basket picnic of the Union High school, under the auspices of the Union P.T.A., will be held Saturday evening, June 16, at 6:00 o'clock on the school grounds.

Mrs. V. J. Connerly and Harry Wright are in charge of the picnic arrangements with Chester Schuler and Claude Jenkins in charge of the games and contests for the children.

Coffee and chocolate milk will be served by the P.T.A. members.

Altman Stationed At Memphis Airport

Pfc. Orville W. Altman, son of Mr. and Mrs. Carl Altman of New Castle, is now stationed at Memphis Municipal Airport, Memphis, Tenn., and is an automobile repairman there.

Odd Fellows And Rebekahs Attend State Convention

A group of local women, members of the Rebekah chapters, and Odd Fellows have returned from Pittsburgh where they attended the state convention of the Rebekahs and I.O.O.F. held in the William Penn hotel June 10-13.

Frank H. Naylor of Spring City was installed as grand master of the I.O.O.F. Mrs. Mary Jones Burr of Ebensburg was installed as president of the Rebekah Assemblies of Pennsylvania. Mrs. Margaret Brooks of Rachel Rebekah lodge No. 40, New Castle, was reappointed district deputy president of Lawrence county. Mrs. Ruth Lackey of Meadville was elected as president of the board of control of Theta Rho Girls of the state and Mrs. Marie Roof was elected secretary of the same organization. Ralph Mayers of the I.O.O.F. lodge, New Castle, was appointed district deputy grand master.

The state secretaries dinner was held on Monday with a one o'clock luncheon being followed by a business meeting at which Mrs. Marie Roof, New Castle, presided. Mrs. Ada Gray, of Aliquippa, is the newly elected president of the state secretaries.

Mrs. Wilburta McWilliams represented the Emeline Rose Rebekah lodge No. 37 as a delegate at the convention. Mrs. Marie Roof, also of that lodge, has announced that a new Theta Rho Girls club will be instituted in Kittanning on June 27.

Loan Of 7.8 Million Dollars Denied

WASHINGTON, June 15.—(INS)—The Hazleton (Pa.) Steel and Tubing Corp. was denied a 7.8 million dollar loan today on grounds that its management is "not satisfactory".

The disclosure was made by Defense Production Administrator Edwin T. Gibson who said the government plans to make a "complete revision" of defense lending policies.

Gibson has been closeted for several days with a house sub-committee, headed by Rep. Hardy (D) Va., which has been investigating the defense loan and tax concession program.

The sub-committee has been critical of the program and questioned Gibson at several closed-door sessions about the proposed Hazleton loan.

Mickey Cohen Opens His Defense Today

LOS ANGELES, June 15.—(INS)—Gambler Mickey Cohen, on trial for income tax evasion, opens his defense in federal court today.

Among the witnesses his attorneys have on call is Allen Smiley, one-time top aide to Benjamin (Bugsy) Siegel, slain gangster.

It is presumed that Smiley is being called to corroborate a Cohen claim that he borrowed $25,000 from Siegel and never paid it back.

Cohen's answer to the government's charge that he evaded $156,123 in taxes from 1946 through 1948 is that he lived largely on borrowed money.

Smiley has been brought to Los Angeles from the McNeil Island Federal penitentiary to testify for Cohen. Smiley is serving a one-year sentence for falsely claiming American citizenship.

More than 40 percent of the fires that occur in the United States are estimated to break out between 6 p.m. and midnight.

Margiotti Out Of Nuzum Case

WELLSBURG, W. Va., June 15.—(INS)—Attorney Charles J. Margiotti confirmed today that he has withdrawn as defense counsel for Jerry Nuzum, Pittsburgh Steeler halfback who is awaiting trial in New Mexico on charges of having slain a young waitress.

Margiotti said he was withdrawing from the case for "personal reasons" adding that his withdrawal "has nothing to do with the merits of the case".

Nuzum is accused of slaying Olvida Coogler, 19-year-old waitress of Las Cruces, N. M., whose body was found in the desert near there 16 days after she disappeared in April 1949.

She allegedly was last seen in Nuzum's company the night she disappeared.

Drive Slow—Children Move Fast!

Try And Stop Me

By BENNETT CERF

A fellow in a small town in Indiana bought a new coupe and found it completely unsatisfactory. The dealer who had sold it to him, however, refused not only to refund the purchase price, but wouldn't effect necessary repairs. In revenge the outraged purchaser painted the car a hideous yellow and attached an enormous sign on top that read, "This is a brand new (brand of car). Watch out for flying parts."

A rueful bridegroom told an inquiring reporter, "I never knew what happiness was until I got married—and then it was too late."

A new organization called the Beer-of-the-Month club undertakes to send its members cases of choice Bavarian and Copenhagen brews at regular intervals. Publisher Ben Huebsch, an inveterate punster, thinks the selecting jury should include Albert Maltz, Max Beerbohm, Virgil Partch, Alec Guinness, Catherine Drinker Bowen, Henry Seidel Canby and Ian Ballantine. With the first case, of course, goes a complimentary set of "Remembrance of Things Pabst."

LOIS RUTH McILRATH WEDS IN GEORGIA

Mr. and Mrs. William Nabors of Chattanooga, Tenn., a bride and groom of June 4, are visiting with the latter's parents, Mr. and Mrs. Charles McIlrath, R. D. 1, expecting to return to Chattanooga on June 22. Mrs. Nabors is the former Lois Ruth McIlrath.

The lawn of the home of Rev. Gustav Woerner, Toccoa Falls, Ga., was the scene of the wedding ceremony of Miss McIlrath and James Nabors of Chattanooga. Rev. Woerner, former missionary to China, united the couple in marriage at 5 p. m., using the double ring ceremony. Miss McIlrath and Mr. Nabors graduated from the Toccoa Falls, Ga., Bible Institute at 10 a. m. on the day of their marriage, receiving their B. A. degree and then were united in marriage during the afternoon ceremony.

The bride, who is the daughter of Mr. and Mrs. Charles McIlrath, R. D. 1, chose a ballerina length white organdy gown for her wedding attire and carried a bouquet of red and white roses. She was given in marriage by her father. Coretta Nabors, sister of the groom served as maid of honor.

As best man, Ray Woerner served, with Robert Kalajainen and Eugene Johnson of this city serving as ushers. Carol Ann Johnson and Larry Kalajainen, both of this city, served as flower and ring bearers, respectively.

Mr. Nabors is the son of Mr. and Mrs. Frank Nabors of Chattanooga, Tenn.

Accompanied by organ music, Mrs. Helen Good and Mrs. Jack Mathes sang "Seal Us O Holy Spirit". Mrs. Mathes also sang "Because" and Mrs. Good, "O Perfect Love".

A reception followed in the Woerner home with Mrs. Gene Johnson of this city, cutting the cake.

Mr. and Mrs. Nabors plan to enter into foreign missionary service under the Christian and Missionary Alliance after serving in pastoral work in this country for two years.

The couple will return to Chattanooga, to Mr. Nabors' home after June 22, where they will reside, until taking up their church work. Mrs. Nabors is a graduate of Shenango High school and completed three years at Toccoa Falls Institute before graduation there.

Reports were given by Mrs. A. Shapiro and Mrs. L. Zieve, co-chairmen for the sale held recently. After the business meeting Mrs. Abe Cohen gave a gracious farewell speech, expressing her thanks to the members for their fine cooperation during her time as president. On behalf of the organization, she was then presented wtih the past president's pin and a certificate by Mrs. Jules Lipschutz, who expressed thanks to Mrs. Cohen for her excellent service as president of the sisterhood.

The new president, Mrs. Harry Moresky, accepted her office graciously with a brief acceptance speech and stressed the work she expects to do with the aid of all members of the organization.

After the installation a musicale was given, dealing with the story of the sisterhood; the aid and service which the sisterhood has given to the synagogue proper, as the Tifereth Israel synagogue is now considered one of the finest in western Pennsylvania. Those taking part in the musicale were Mrs. Sherman Samuels, Mrs. Lawrence Horlick, Mrs. Abe Cohen, Mrs. Harry Moresky, with Mrs. M. Slavonsky as accompanist, assisted at the piano by Miss Maxine Paula Slavonsky. Mrs. Gus Slovonsky was the narrator and Mrs. Jules Lipschutz the director.

U.N. Forces Are Pushing Ahead Toward Wonsan

(Continued From Page One)

areas, however, little enemy resistance was encountered by tank-led United Nations columns which probed as far as six miles into Red-held territory Thursday.

East of the Allied-captured "Iron Triangle," Chinese troops up to battalion strength struck back from strong mountain positions in aggressive defense of the enemy's new nerve center, Kumsong.

Some Pullbacks Forced

Some UN vanguard units were forced into temporary pullbacks but no Communist penetrations of Allied lines were reported up to early Friday.

Kumsong is 28 miles north of Parallel 38 and 18 miles due east of Pyonggang, apex of the triangular pleateau just overrun by UN forces.

Northeast of Pyonggang, Allied patrols met some resistance as they probed up the rail-highway route slanting across the peninsula to the port of Wonsan.

Low-sweeping UN airmen kept hitting enemy retreat and supply arteries as well as other key targets.

The Communists retaliated with their southernmost aerial venture in several months. They bombed two Allied-held areas below Seoul during the hours of darkness before dawn.

Bombs are Dropped

In what may have been a test of UN anti-aircraft defenses, an unidentified propellor-driven plane dropped four bombs in the area south-southwest of Yongdongpo at 3 a.m. flying south. The plane made another pass and strafed the area with machine gun fire.

Yongdongpo is an industrial suburb of Seoul and is five miles southwest of the South Korean capital.

Two 400-pound bombs and two 50-pound fragmentation missiles were dropped by an unidentified aircraft near the Suwon airfield, 20 miles south of Seoul.

It was not known whether the two attacks were made by the same plane or by two different aircraft.

The was no report of damage or casualties in the two air raids.

Allied airmen worked over the area between Wonsan and the present UN ground positions in the eastern half of North Korea. Land-based U.S. marine pilots blew up 150 feet of track leading to a rail bridge at Singosan, 32 miles up the railroad from captured Pyonggang toward Wonsan.

UN planes mounted 950 sorties Thursday despite low clouds and poor visibility. They pounded roads, bridges, rail lines, supply concentrations and airfields.

BROWN AHEAD

NEW YORK—(INS)—Early predictions by some fashion experts say that brown is going to be about the biggest color for next fall. They say the brown shades, which started to make their comeback last autumn, will be smarter than ever. Especially popular and high-fashion will be the very dark tones and the spicy ginger shades.

New Castle Now Headquarters

—New Castle News Photo

Officers and enlisted personnel of the New Castle Squadron of the Civil Air Patrol hear their commanding officer, Capt. Karl G. Walter, read orders making their unit, group headquarters for Lawrence and Beaver counties during Thursday evening meeting.

Pittsburgh Group of the Pennsylvania Wing of the Civil Air Patrol has been subdivided according to a statement released today by Lt. Thomas Collins, public relations officer of the New Castle Squadron, C. A. P.

The Pittsburgh Group will continue as such and will include squadrons at Irwin, Greensburg, Coraopolis and McKees Rocks. The newly formed New Castle Group will cover squadrons in Lawrence and Beaver counties. Capt. Karl G. Walter, New Castle Group commander, said that five new squadrons will be formed in the two counties immediately and will necessitate an immediate increase of enlistments of personnel at the local headquarters.

Enlistments are open to persons, citizens of United States, between the ages of 15 and 60 years of age. The C. A. P. drills are also open to boys of the Air Scouts who are being trained at the C. A. P. headquarters Deshon Annex.

Formerly the Air Scouts were trained under the auspices of the American Legion by personnel of the Legion. When these men were recalled to military service the training was turned over to the C. A. P. It is conducted at Deshon Annex. The Air Scouts have a total strength of 38 in the local unit.

Can Sell European Steel In U.S. At Outrageous Price

By WILLIAM KERWIN
(I. N. S. Staff Correspondent)

WASHINGTON, June 15.—The government estimated today that American "brokers" will sell approximately two million tons of "outrageously" priced European steel this year to U. S. industry without violating a single federal control law.

At the same time the U. S. plans to send under the Marshall plan and through normal trade channels about 750,000 price-controlled tons of special steel to Europe for rearmament and essential civilian needs.

Economic Co-operation Administration and Office of Price Stabilization specialists said that the U. S. will obtain about five million tons of steel from European producers in 1951.

More than half of the imported steel will be fairly priced, having been purchased by American manufacturers dealing directly with producers mainly in Belgium, France and Germany.

Black Market Prices

However, an ECA official said that about two million tons will be brought in by American "brokers" attempting to sell the steel from two to five times the normal price of the material.

He declared: "As a matter of fact, most of the stuff coming in is inferior to the type of steel we are producing. But they are asking black market prices. It is outrageous."

One Philadelphia broker recently circulated an advertisement offering 11,500 tons of sheet and bar steel ranging in price from $146 to $300 a ton.

Officials said the prices on this offering should have ranged between $100 and $120 "and no more".

Widespread advertisements of hard-to-get steel and other scarce materials such as copper and aluminum are receiving the continual attention of ECA, OPS and National Production Authority officials.

However, they said there is nothing the government can do to stop the practice at this time.

Watch for Re-sale

Price regulations have not been imposed by foreign governments and officials said it would be difficult to persuade them to match American action and put into effect a broad controls program.

Nevertheless, OPS experts are watching to see if the steel is being resold. Reselling transactions involving above-ceiling prices are a violation of law.

In addition, manufacturers who accumulate excessive inventories of scarce materials whether from foreign or domestic sources are liable for NPA and Justice department compliance action.

ECA officials pointed out that they are permitting shipments of specialized types of steel not available in Europe to meet military and essential civilian demands.

They blamed the high European steel prices on American brokers who have bid up prices to their present levels. They added the situation could be alleviated if American manufacturers would deal directly with European producers.

Loan For India Bill Is Signed

(BULLETIN)

WASHINGTON, June 15.—(INS)—President Truman today signed into law the bill to lend India 190 million dollars to purchase U. S. grain and hailed the measure as strengthening "Indian-American understanding and friendship".

The bill provides for the sending of two million tons of food grains to India to aid that drought-stricken, famine-ridden country.

Demands Apology On Charges Made By Pentagon Officials

WASHINGTON, June 15.—(INS)—A New England congressman today demanded that Pentagon officials who called the 43rd division the "cry-baby division" be compelled to aplogize.

The division is composed of federalized National Guardsmen from Vermont, Connecticut and Rhode Island and is stationed at Camp Pickett, Va.

In a letter to Defense Secretary Marshall, Rep. Prouty (R) Vt., assailed the "anonymous Pentagon officials" who gave the division what he called "one of the most undeserved insults imaginable".

He wrote Marshall that "the names of high ranking officers who referred to the division in such derogatory terms should be revealed and a public apology demanded."

Prouty made public his letter to Marshall in a report on a one-day surprise visit he made to the much-investigated army training camp.

He stated that many earlier deficiencies in the camp have now been rectified. He added that he heard the "usual amount of petty grumbling and fault finding" but on the whole "I would say that morale was very satisfactory; the boys are working very hard, but look healthy and in the best of condition."

Prouty asserted that when the 43rd division first went to Camp Pickett it was "scarcely fit for human habitation" and there were "insufficient supplies and equipment". The congressman added that despite this "these men succeeded where those with less determination would have failed."

Former Tax Expert Against Plan

(By International News Service)

HARRISBURG, June 15—A former state tax expert opposed the flat income tax as inequitable. . . . H. F. Alderfer, one-time director of the bureau of municipal affairs, said that because no exemptions can be made, a single man with a $3,000 salary would not be taxed any more than a man with the same income with or six dependents. . . . Alderfer, secretary of the Institute of local government after leaving the state payroll, favored a graduated income tax along the lines of the federal levy. . . . He claimed such a tax is "based more on ability to pay" . . . "It is considered by most tax experts to be one of the more desirable forms of taxation." . . . However, the state constitution forbids any except uniform taxes. . . . Alderfer was equally opposed to the sales tax. . . . "In spite of its high productivity, it does tend to fall more heavily on the poorer than on the wealthier groups," he said. . . . The government expert made his views knowns in a pamphlet on state government. . . . Thirty-one states levy on personal income of some form and Pennsylvania is one of seven states which does not have either a sales or income tax.

Pressure in favor of the "big truck" bill, which in essence would raise the present maximum weight for tandem axle trailers from 45,000 to 60,000 pounds, is reaching a peak . . . The bill, reported out of committee and ready for floor action in the Senate, has not gotten the nod from the State Highways Department, the biggest hurdle truckers must get over before they can hope to see the bill a law . . . However, trucking interests have not been idle . . . They have turned out reams of favorable publicity handouts to newsmen and have taken large amounts of newspaper advertising, pushing their campaign for higher weights . . .

Although the present term of the General Assembly appears destined to be one of the longest in history, it can at least point to faithfulness of its members' daily attendance . . . Even though it has drifted along for weeks, there were few instances of mass absenteeism in either chamber . . . There was only one glaring exception . . . Near the end of May when an emergency appropriation of $10,000,000 was necessary to keep the state functioning for the month of June—the first of the 1951-53 biennium—a midnight session was called to get the two bills through under the deadline . . . For that session, a total of 17 of the 257 lawmakers were in their seats when gavels were rapped in both chambers.

Most absences have been registered on the last day of the weeks when the assembly was meeting four and five days . . . But even then there were enough for quorums . . . It is a rule of both Houses that leaves of absences must be granted by the president of the Senate for senators and the speaker of the House for assemblymen . . . However, the presiding officer rarely questions a request for absence . . .

The Pennsylvania Federation of Sportsmen's clubs warns that it will throw the full weight of its 200,000 members against any legislation to sidetrack the clean streams program . . . The federation takes some credit for blocking a bill in the Senate which would have delayed for two years orders by the sanitary water board to some 60 communities to install sewage treatment plants within the next two years . . . The organization announced its legislative committee is on the watch for similar bills and that it will "keep an eye on the work of the sanitary water board to see that all the cards are played on top of the table".

Give No Hint Of Program On State Revenue

By JOHN PAGET
(I. N. S. Staff Correspondence)

HARRISBURG, June 15.—Republican senators offered no hint of a solution today on Gov. John S. Fine's muddled fiscal program as they huddled behind closed doors to thrash out the budget impasse which has stalled the 1951 legislative session for weeks.

Only 16 of the 30 GOP senators were on hand when the gavel was banged by caucus chairman James S. Berger, of Potter, who said the secret session will "Last for at least two days".

Several others were expected to be tardy while one, C. Arthur Blass, of Erie, sent word he would not attend.

Blass is one of the 11 staunch foes of Fine's proposed income tax which has stymied final action on the governor's $1,200,000,000 budget for the next two years.

Refuses To Comment

Majority leader John M. Walker, another opponent of the levy, refused to comment on whether any of the 11 had switched sympathies although majority whip Fred C. Hae, of Somerset, previously stated all but two had changed their minds.

Walker said he is going to demand a department-by-department account of requests, particularly in some cases where departments asked for more money even though they had shown a surplus from the last biennium which ended May 31.

He did not identify the departments.

Banking secretary O. M. Campbell was the first department head to be queried with Internal Affairs secretary William S. Livengood, Jr., Attorney General Robert E. Woodside and Civil Defense Director Richard Gerstell waiting in line to appear before the lawmakers.

Opponents of the budget claim the $20,000,000 channeled to Gerstell's bureau can be slashed by 18 million dollars as one way to sidestep the need for additional taxes Fine said is necessary.

Prior to the caucus the governor met with Senate president pro tem M. Harvey Taylor, of Dauphin, Berger and several other Senate leaders.

Proposal To Freeze Parity Levels Is Apparently Doomed

WASHINGTON, June 15—(INS)—In the eyes of at least one Republican leader, the administration proposal to freeze parity levels at the start of the marketing season is doomed.

Sen. Robert Taft (R) Ohio said yesterday he felt the parity freeze hasn't a chance to pass Congress because of strong farm bloc opposition.

President Truman proposed the measure in April, when he asked the legislators to extend and strengthen the defense production act which expires June 30.

Taft also commented on the poll of American Farm Bureau members in his home state which registered strong opposition to any extension of price and wage controls. First returns released yesterday showed 71 per cent of the farmers against such measures.

The Ohio Republican said he didn't think the poll measured national or even Ohio sentiment accurately because farmers as a group are usually opposed to economic regulation. He said the farm bureau has led the fight against such measures, and that might have influenced the balloting.

Taft indicated that a limited form of parity freeze might have some chance of passing Congress, but he said the debate could go on until the last minute, so that extension of the defense measure might be rushed through without major changes.

YOUNG TARS

BOSTON—(INS)—The Park Department of Boston is seeing to it that every city child who wants to can become an amateur sailor. The department employs veteran instructors and provides a fleet of 20-foot sailboats in its nautical program. It teaches hundreds of youngsters the rudiments of sailing in the Charles River basin. Would-be skippers, of course, must pass a swimming test. Last summer, the young tars sailed almost the distance around the world — back and forth across the river.

Reports Indicate U.S. Planes Landed In Czechoslovakia

WASHINGTON, June 15—(INS)—State department revealed today that it had "reliable reports" that the two missing U. S. air force planes which were lost on June 8 landed in Czechoslovakia.

It had been speculated earlier that these plans, both jet fighters in a training mission in the U. S. zone of Germany had gone into that iron curtain country.

Today's announcement was the first establishing definite information on this fact.

The department said that the American embassy at Prague sent a note to the Czech foreign ministry immediately on receiving this information, the embassy requested assistance in locating them. Since then the embassy has pressed both the foreign and defense ministries in Prague for help in finding the planes. No answer has been received to these requests.

Lt. Gen. Lauris Norstad, commander of U. S. air forces in Europe said in a report that the pilots "may have experienced difficulty in determining directions because of interference from radio transmission."

He added that one of the pilots, First Lt. Luther G. Roland of Hummelstown, Pa., was very near the eastern zone boundary when he last asked to be given his position and directions.

The pilot was given two radio fixes and was advised to turn immediately in the opposition direction from the Russian zone, but whether the information reached him without interference is uncertain.

Army Reservists Must Take Physical By June 30 Deadline

Some 4,600 Western Pennsylvania Army reservists will have until June 30 to take a physical examination and complete an evaluation questionnaire, district Army headquarters in Pittsburgh announced today.

Questionnaires to determine physical condition, dependency status, former service and other information were mailed to 12,700 reservists in the 26-county Western Pennsylvania Military Sub-District.

Eighty-one hundred have completed the form and exam. The remaining 4,600 who failed to meet the previous May 30 deadline will be notified by registered letter when and where to report for the examination.

District officers said that those who do not comply by the new date will be placed in a "mobilization availability category" and reported to the Department of Army.

The evaluation program was started on April 1. Notices were sent only those reservists who have not had a physical examination within the last year.

Officers stressed the program is not designed for calling reservists to active service, but to enable the Army to screen unqualified reservists from its rolls and let the individual reservist know where he stands.

Rev. Milligan Installed At Highland U.P.

Rev. Dale K. Milligan was installed as associate pastor of Highland U. P. church at an effective and challenging service Thursday evening in the church. Rev. Milligan will serve the North Hill congregation while Dr. Jennings B. Reid, the regular minister, is serving as a chaplain in the U.S. Army in Korea.

Dr. Graham Presides

Dr. J. Paul Graham, moderator of the installation commission of Beaver Valley Presbytery of the United Presbyterian church of North America, presided. Dr. Addison Leitch, professor of systematic theology of Pittsburgh-Xenia Theological seminary and former interim pastor of Highland church, preached the sermon using "The Challenge of the Routine" as his theme. His text was taken from Numbers 33:13. Dr. Leitch said that an architect has a vision of a house without a flaw in it. We must catch the vision first, then things will be what they should. The speaker added, "There is no foundation except Christ."

Dr. Graham conducted the installation of Rev. Milligan. Dr. Will W. Orr, president of Westminster college and former pastor of Westminster U. P. church, Des Moines, Ia., Rev. Milligan's home church, offered the prayer of installation. Rev. J. Hubert Henderson, of Wallace Memorial U. P. church, Greentree, Pa., were Rev. Milligan served as assistant during his senior year at Pittsburgh-Xenia Theological seminary, charged the new minister, using Malachi 2:7 as his text. He stated that Rev. Milligan should spend hours in study, meditation, prayer and reading. There should be a genuine love for the congregation.

Dr. Williamson Speaks

Dr. C. J. Williamson, former professor of Pittsburgh-Xenia Theological seminary and pastor of Highland church, charged the congregation. He said the members should pay respect to their minister by attendance at services, enthusiasm and spirit. The congregation should pray for Rev. Milligan and practice his preaching.

The chancel choir sang "Holy Is the Lord," an anthem by Schubert, under the direction of Edward C. Book with Mrs. Jay L. Reed as organist.

Rev. Aaron Powers, assistant pastor of Second U. P. church and a son of Westminster U. P. congregation, offered the invocation, while Rev. James A. Crawford, of Mt. Jackson U.P. church read the Scripture. Rev. Milligan pronounced the benediction.

Reception Follows

A delightful reception for Rev. and Mrs. Milligan followed the installation, with T. C. Hawkins, H. J. Brenneman, J. Glenn Berry, W. J. Offutt, Mrs. T. I. Elliott and I. A. Balph, representing various official boards, being in the receiving line with the honored guests. Refreshments were served, under the direction of Unit Four of the Naomi circle, Mrs. Bertha Smith being the unit leader, with wives of the elders and trustees and deaconesses as aides.

Colorful roses decorated the tables, where Mrs. Porter Campbell, Mrs. Harry Helmick, Mrs. A. R. Batten, Miss Elsie Grieder, Mrs. Carl Paisley, Mrs. T. I. Elliott and Mrs. J. Glenn Berry presided at the coffee services.

W. J. Offutt, Dr. E. F. Henderson and I. A. Balph composed the pulpit committee.

Farm Accidents Run High During Haying Season

WASHINGTON, June 15.—(INS)—Farm engineers are advising farmers who want to make hay while the sun shines to keep their eyes open in the process.

They say haying operations mark the beginning of the season when farm accidents run high, so it's a good idea for farmers to assure safety and avoid lost time by checking equipment carefully before haying starts.

According to the engineers, farmers should be on the lookout for defective hitches, ropes, pulleys, lifts, hay racks and ladders. Also, they should check mowing equipment to see that safety guards are in place.

Careful farmers make certain their hay is well cured before it is stored in hay mows. Damp hay will heat and start a fire—the principal cause of barn fires.

Today's Fashion Flash

NEW YORK, June 15.—(INS)—What's good for the goose is good for the wardrobe!

That's the opinion of midwest geese-breeders who today are turning goose-down into soft, cuddly pelts they hope to sell fashion designers for use in negligee trims, dress accessories, slippers, baby shoes, hats, even swim suits.

The breeders, discontent with confining their downy output to powder puffs (only goose feather outlet to date), are plugging a recently developed process by which goose skins can be tanned, and the down dyed.

Largest pelts turned out to date run 16 by 34 inches, cost $15, and come in pale pink, orange, light blue and white. The breeders guarantee they're warmer, weight for weight, than any fur ever produced. Furthermore, they're fluffier and more durable than maribou . . .

What's good for the goose, they add, should be good for a gander from any man!

Reorganize State Department Urges Louis Johnson

By JAMES LEE
(I. N. S. Staff Correspondent)

WASHINGTON, June 15.—Former Defense Secretary Johnson said today he thought the U. S. could win a war with Russia now but voiced "grave concern" over state department handling of military aid and declared the department should be "reorganized."

Johnson told Senators investigating Gen. MacArthur's dismissal that he regretted testimony by military leaders who have said that America is so unprepared it could not hope for victory over Russia if war were to come now.

Sen. Morse (R) Ore., declared:

"I believe we could lick Russia right now if she wanted to pick a fight with us."

Johnson replied:

"I do, too, and I am sorry to see statements that indicate we can't do that. The industrial might of this country is a thing Russia fears and respects, and with the strategic air force, we will avoid war."

40 And 8 Will Have Conference

Lawrence County Voiture No. 81 will send delegates to the Northwest district conference and wreck, which will take place on Sunday, June 17, at the American Legion Home in Punxsutawney, Chef de Gare Harvey G. Bintrim announced today. Around ten from the Lawrence County Voiture expect to attend including several P. G's, who will be wrecked.

There are eleven counties in the Northwestern district, who will send delegates to the conference.

In addition to Grand Voiture officers, visitors from the Southwest and North Central districts will attend.

ROBINS
BETTER FURNITURE FOR LESS

Around Hollywood

By JAMES PADGITT

(International News Service Staff Correspondent)

HOLLYWOOD, June 15.—Bill Lundigan takes the stand that the practice of law is perfect training for a movie actor.

At least it makes him just about the only star in Hollywood who takes the trouble to personally read the fine print in his contract.

A Syracuse university graduate who passed the bar examinations in New York, Lundigan was about to hang up a shingle but decided that a jury was not audience enough for the actor in him.

"Look at all the top-notch trial lawyers," said Lundigan, "and you will notice that they make use of every dramatic trick ever devised.

"Watching them go through their paces is like looking in on a performance by an outstanding artist of the stage or screen."

Self Defense

Lundigan combined his legal and histrionic talents in pleading his case with lovely Jane Greer in "Friendly Island". He had to act in self defense because his leading lady, as per script, indicated an interest in a party of the second part.

The actor said that he, like many another Hollywoodian, heads for the courtroom whenever an important criminal trial is unfolding.

"There is no better case study of human emotions in the raw," he says, "because generally there is so much at stake. I have seen many a film performance modeled after a portrayal originally presented before a jury."

Lundigan knew his Blackstone backwards and forwards, being such a diligent student and his classmates predicted a brilliant future for him at the bar.

You Can't Lose

And he probably would have achieved eminence in his field if, at a turning point in his career, he hadn't decided to chuck the law in favor of the theater.

In "Friendly Island" Lundigan is commanding officer of an army unit assigned to occupation duty. He is allied military governor as well, a post in which he is empowered to make his own laws.

This works out admirably for Lundigan because he can run things more or less his own way, which is an enviable situation indeed for a loneup bachelor on a far-off tropical isle where his only company consists of hundreds of well-landscaped native maidens.

Lundigan has never regretted his switch in careers.

"In the movies," he declares, "you always win your case."

CAN TALK ENGLISH

Susan Cabot, the beauty who was born in Boston and raised in the Bronx, wonders when they are going to let her speak English on the screen.

The studio at present is testing Susan for the role of Indian maid opposite Jeff Chandler in "Apache Pass", a fact which reminds her of her movie background to date.

The girl from Back Bay and the Bronx made her film debut in the role of a Samoan girl in "On the Isle of Samoa". She was an Indian in "Tomahawk" and an Arabian dancing girl in "Flame of Araby".

"My skin is very white, and I've even dropped my Bronx accent in learning to speak perfect English," wails Susan.

DEAF MUTE KILLED

PITTSBURGH, June 15.—(INS)—Police reported today that a deaf-mute of nearby Braddock was killed last night by a Baltimore and Ohio freight train.

The victim, Mary Gigliotti, 32, of Braddock, was pronounced dead of a fractured skull and internal injuries.

Dewey Lashes Out At Government Power Development In West

ALBANY, N. Y., June 15.—(INS)—Governor Thomas E. Dewey said Thursday that money taken by the federal government from New York and New England taxpayers is being used for western power projects to "put us out of business".

Addressing a conference of the New England-New York interagency committee, Dewey lashed out at the disproportionate amount of federal funds he said are being spent for the development of western power.

He renewed his plea for immediate development of the St. Lawrence seaway and power project and of Niagara Falls power.

"We need a cheaper supply of power," he said, "if this is not to become an outmoded section of the country, unable to compete with federally-subsidized power of the west—subsidized by our money that is being used to put us out of business."

WOMAN FATALLY BURNED

HARRISBURG, June 15.—Mrs. Annabelle Walton, 30, of nearby Newport, R. D., seriously burned when she poured oil on a smoldering wood fire, died at Harrisburg hospital.

Newport Fire Chief William H. Clough said the victim's husband and son, asleep in a second floor bedroom when the fire broke out, escaped when Mrs. Walton, her clothes ablaze, ran upstairs to warn them.

Walton carried his wife and son to a porch roof where firemen rescued them.

Clough said the blaze following the stove explosion destroyed the Walton home.

Drive Slow—Children Move Fast!

THE FAMILY SCRAPBOOK

By DR. ERNEST G. OSBORNE

DIRTY! DIRTY!

At four years of age, Timmy Trent was an "old maid." The slighest spot of dirt on his clothes or soiled hands upset him so that he could do nothing until they were cleaned. And he wanted everything right in its place in his room.

How does a young child get this way?

It surely isn't a happy state of affairs. And the Trents worried, as almost any parents would.

Part, they figured, came because Mrs. Trent had perhaps made too much of cleanliness. Timmy was a fine-looking boy and the attention he got from other people pleased her. Most of the time she tried keep him in showcase condition.

But there was something else, too; something that was harder to understand. Both the Trents were very busy. Both had had little experience with children. They acted toward Timmy as though he were a little gentleman rather than a small boy who needed a lot of attention and affection. Interestingly enough, experience shows that often when a child or even an adult doesn't have a warm and affectionate relation, he seems to find some sort of substitute satisfaction in having his own little world in apple-pie order. Yes, it isn't easy to understand just why this happens, but it does.

Outdoor Court Of Awards For Girl Scouts

The Girl Scouts of Troop 14 were hostesses to their Mothers and Fathers at an Out Door Court of Awards program at a special meeting held at the home of their leader, Mrs. A. Bates Butler, 216 E. Garfield avenue.

Patricia Trecasse was mistress of ceremonies and Muriel Kennedy was song leader for the following program: Welcome, Patricia Trecasse; Janet Alexander, song, "Girl Scouts Together"; demonstration of "My Troop Badge".

Impersonate Badge

Sandra Papst impersonating the badge carried the troop's record book, Marcia Myers, Helen Smith, Donna Jean Naylor, Patricia Wilson and Carol Gibson demonstrated the ten activities they had fulfilled to earn this badge. They have learned about the founder of Girl Guides in Great Britain and Girl Scouts in United States. They had participated in programs with other scouts, have learned how to keep the troop's records, how to wear the scout uniform and prepared an inventory of their supplies and learned other skills which benefited their troop.

The following songs formed a break before the second badge demonstration: "When Ere You Make a Promise", "Fancy".

Peggy Stevens carrying a suitcase and umbrella represented the Traveler's badge. Carol Jenkins, Betsy Lockhart, Muriel Kennedy, Nancy Hoffman, Katherine Weber and Juliet Perry told how they had earned this badge. The outstanding activity was a train trip to Youngstown on which they learned about whistle stops, baggage, fares, timetables, emergency equipment and other important features of rail service. The scouts visited the diner and kitchen under the supervision of the chef.

Muriel Kennedy again led the group songs "Sing! Sing! Together" and "Golden Slumbers".

Janet Alexander represented the Child Care Badge by carrying a doll baby.

Demonstrates Technique

Carol Jenkins demonstrated techniques of bathing a baby. Other scouts participating in this badge were Sandra Corbett, Marcia Evans, Susanne Sampson, Sandra Weiner and Betsy Lockhart. They told of making stuffed toys and giving these and children's books to the children's ward at Jameson Memorial hospital. Another interesting activity was the visits by small groups to the kindergarten at George Washington, where they participated in working with the class using skills of handling pre-school children. They also learned about birth certificates, proper foods, and precautions with diseases of childhood.

The group again sang. All the songs represent requirements of the Group Music Badge. The song, "All Night, All Day" is an art song. Mrs. Jacob Jordan is serving as music consultant for this badge.

These proficiency badges were awarded by the troop committee chairman, Mrs. John J. Alexander, who was assisted by the following troop committee members: Mrs. Matthew Hoffman awarded second class rank badges to Patricia Wilson and Helen Smith.

Mrs. James C. Meyers awarded My Troop badges to Janet Alexander, Sandra Corbett, Marcia Evans, Carol Gibson, Nancylou Hoffman, Carol Jenkins, Muriel Kennedy, Betsy Lockhart, Marcia Meyers, Donna Jean Naylor, Sandra Papst, Juliet Perry, Susanne Sampson, Helen Smith, Peggy Stevens, Patricia Trecasse, Katherine Webber, Sandra Weiner and Patricia Wilson.

Badges Awarded

Mrs. Gordon Jenkins awarded Child Care Badges to Janet Alexander, Sandra Corbett, Marcia Evans, Carol Gibson, Nancylou Hoffman, Carol Jenkins, Muriel Kennedy, Betsy Lockhart, Marcia Meyers, Juliet Perry, Susanne Sampson, Helen Smith, Peggy Stevens, Patricia Trecasse, Katherine Weber, Sandra Weiner, Patricia Wilson.

Mrs. Theodore Corbett awarded Traveler's Badges to Janet Alexander, Sandra Corbett, Marcia Evans, Nancylou Hoffman, Carol Gibson, Carol Jenkins, Muriel Kennedy, Betsy Lockhart, Marcia Meyers, Juliet Perry, Susanne Sampson, Peggy Stevens, Patricia Trecasse, Katherine Weber, Sandra Weiner, Patricia Wilson, Donna Jean Naylor and Helen Smith.

Mrs. Paul H. Wilson presented the entire troop with their troop crests.

An international friendship ceremony followed as Juliet Perry presented World Pins to Helen Smith who is returning to Colombia, South America and Donna Jean Naylor to San Diego, Calif. An international bond will exist as the troop continues this friendship by letters.

The Girl Scouts who never forget their promise to our Country showed evidence of their patriotism by retiring the Colors. Katherine Weber and Helen Smith were the Color Guards.

After the singing of Taps each Scout served refreshments to her own parents and guests.

Troop 14 is one of the troops in the newly organized Highland-McGill community.

Troop Committee Treasurer, Mrs. Robert Weber, gave an itemized accounting of how the Scouts had built and expanded the troop budget as part of their training in financing.

Mrs. Paul Reed has been serving as assistant leader to Mrs. Butler since January and along with the leader and troop committee made a great contribution in seeing the completion of this fine program in Scouting.

Urges Doctors Enter U.S. Service Upon Their Graduation

ATLANTIC CITY, N. J., June 15—(INS)—The chairman of armed forces policy council urges that fledgling doctors go right into the services for a prescribed period immediately on graduation from medical school.

Thus said Dr. Richard L. Meiling in an address to the 100th meeting of the American Medical Association, the need of the armed services for physicians could be met.

He pointed out that his proposed plan is now in effect in several other democratic countries along with the draft of young men for other military duties.

Dr. Meiling emphasized last night that the present mobilization period may last for ten years or more and said:

"We must plan together for some new means to meet this new military requirement."

Over Brief Periods

He observed that the medical school graduates could serve with the armed forces over several brief periods or in one longer period, depending on the individual and the military needs. He added:

"Personally, I feel such a plan has great merit rather than to overly expand the regular service to meet the anticipated demands.

"We must realize that with a force of 3.5 million men under arms many of the traditions so coveted for a force of 185,000 (as in 1939) must be replaced by practical considerations.

"Today no United States military patient is more than 30 to 36 flying hours from the specialized and definite care of the hospitals of continental United States. We cannot build, staff or operate duplicating systems of specialized and definite care hospitals in overseas areas and in continental United States as we did in World War II. Each military patient overseas requires five able-bodied non-combatants to provide for him. Each of these requires approximater 0.8 measurement tons of supplies (food, clothing, etc.) each 30 days. Military commanders recognize these facts today and expect medical plans to be developed accordingly."

Demand Woman Be Prosecuted For Atrocity Charges

LONDON, June 15—(INS)—Demands were made today in a post-midnight session of the House of Commons that Mrs. Monica Felton be prosecuted for accusing United Nations forces of atrocities after returning from a tour of North Korea.

Mrs. Felton, long a member of the Labor party, was discharged Tuesday by Hugh Dalton, minister of town and country planning, from her post as chairman of the Stevenage Corporation. The latter is an organization which builds new homes.

Angry demands were made that Mrs. Felton should be prosecuted on a charge of high treason.

Attorney General Sir Frank Soskice informed the House of Commons that papers concerning Mrs. Felton's case already have been referred to the director of public prosecutions. Sir Frank said that therefore it was "inappropriate to discuss the matter further."

Dalton said that Mrs. Felton, who visited behind Communist enemy lines while a member of a 20-women group who went to Korea last month, was fired because she was absent without leave. The group she traveled with was on a reported fact-finding mission which was sponsored by the Women's International Democratic Federation."

(BULLETIN)

MANILA, June 15.—(INS)—A United States Navy spokesman announced in Manila today that three persons were killed and 15 others injured when a Navy twin-engined seaplane crash-landed and burned at the Sangley Point base in the Philippines Wednesday night.

The big craft was occupied by 18 persons including four officers, nine enlisted men and five passengers.

Rail Unions Called To Meeting June 27 On Peace Proposal

WASHINGTON, June 15—(INS) Three major rail unions today summoned their 500 local general chairmen to meet in Washington June 27 to consider a new peace proposal by management in the two-year-old rail dispute.

The new peace offer, which may pave the way for the return of the government-seized railroads to private management, was transmitted to the unions through the National Mediation board.

The Brotherhood of Locomotive Engineers, Brother of Locomotive Firemen and Engineers, and the Order of Railway Conductors announced the calling of their local chairman to decide whether to accept the proposal.

Union officials declined to discuss terms of the offer, but it was understood that the proposal closely parallels the recent settlement management made with the trainmen.

Ask Withdrawal Of Iranian Ultimatum In Oil Dispute

By KINGSBURY SMITH
European General Manager, I. N. S.

TEHRAN, June 15—The British Anglo-Iranian Oil Company announced today that it is requesting the government of Iran to withdraw an ultimatum that the company turn over 75 per cent of its profits by Sunday if negotiations on the oil dispute are to continue.

Basil R. Jackson, deputy chairman of the company, said that the British want more time to consult with London on the matter and that "we do not want a pistol placed at our heads."

Jackson conferred at the American embassy with United States Ambassador Henry F. Grady, after which Grady told American correspondents he will urge the Iranian government to modify its ultimatum and give the British more time.

Negotiations between representatives of Iran and the Anglo-Iranian Oil Company started yesterday but were adjourned almost immediately. The adjournment was called after the Iranian demanded for three-quarters of the profits was made. The Iranians said they would confer further with the Britons over the nationalization dispute on'y if the demand were met by Sunday morning.

Child Is Drowned In Washing Machine

SCHUYLKILL HAVEN, Pa., June 15.—(INS)—A two-year-old girl drowned in a washing machine when her mother left her unattended in order to rescue another daughter who was caught on a picket fence.

Mrs. Quentin Breininger, of Schuylkill Haven, was washing clothes in the cellar of her home last night when she saw her daughter Bonnie Beth, four, caught between the pickets of the backyard fence.

She dashed out to rescue the girl, leaving another daughter, two-year-old Kay Ann, playing on the cellar floor. As Mrs. Breininger freed her daughter, she noticed the house lights go out. She dashed back to the cellar and found Kay Ann in the washer.

The child's body had jammed the paddle, causing the electric fuses to blow out. Police said the child apparently climbed up on a box and toppled into the water.

FALL CAUSES INJURY

Mrs. Anna Jamison of 718 County Line street was admitted to the Jameson Memorial hospital at 1:35 p. m. Thursday for X-ray examination of injuries of the left leg, received when she fell down a flight of steps at her home.

Gold coinage was authorized in the United States on April 2, 1792.

The State Department had earlier proposed that the meeting be held in Washington on July 23.

The four foreign ministers' deputies have been haggling over an agenda for almost three months.

Committee Rejects Commercial Rent Control Request

WASHINGTON, June 15—(INS) The Senate Banking Committee today rejected President Truman's request for authority to control rents on stores, offices and other commercial units.

The opposition to the commercial rent section of the president's proposed controls bill was so strong that Sen. Benton (D) Conn., its chief backer, did not even ask for a vote.

The action, which came on the heels of Mr. Truman's broadcast plea for strong control powers, was reported to newsmen by Sen. Sparkman (D) Ala., as the committee continued work on a new rent law.

Place Blame For Train Wreck At Bryn Mawr, Pa.

WASHINGTON, June 15. — (INS)—The Interstate Commerce Commission ruled today that the crash of two crack Pennsylvania passenger trains at Bryn Mawr, Pa., last month was caused by "failure to operate" in "accordance with signal indications."

The crackup on May 18 killed eight and injured 113 when the fast-flying "Red Arrow" rammed the rear end of the "Philadelphia Night Express" momentarily stopped for a signal .

At the same time, the ICC recommended prompt installation of an automatic train-control system which would restrict a train's speed to 20 miles an hour while proceeding through a section occupied by a preceding or opposing train.

Such a speed control system already is being installed as rapidly as possible on the line where the fatal Woodbridge, N. J., accident occurred some months before, the ICC said.

Will Allow U.S. Navy Enlistments After Pre-Induction Tests

Prospective draftees who have received their pre-induction physical examination notice are permitted to enlist in the Navy during the period of June 15 through July 15.

The directive received from the Pittsburgh naval recruiting office allows the local recruiters to enlist any man up to the time he receives orders to report for induction.

This interservice agreement outlaws the former ruling that prevented men from choosing their service once they received orders to report for physical examination.

The local Navy office will be open Monday through Saturday to speed up the paper work of men in this category.

Big Week At State College

Many Activities To Interest Farmers

Many activities which will be of interest to county farmers will take place at State College next week, and no doubt many local rural residents will want to take in some of these activities, L. C. Dayton, county agent, stated today.

Monday will be Livestock Field Day, when the stock at the college will be on exhibition, and as part of the days' program honor will be paid W. B. Connell, sheep and wool expert, who is winding up 30 years of service to the farmers of the state in his capacity.

From June 18 to 22 there will be a conference for town and country pastors, which is open to all ministers of all faiths, and is particularly designed to assist ministers in their work in rural parishes.

June 19 and 20 will be visiting days at the school of agriculture and school of home economics, when an exhibition of the work in progress in these schools will be shown, along with demonstrations and exhibits.

June 20-22 there will be a meeting of the Pennsylvania Poultry Federation, which is open to all poultrymen interested. There will be a discussion on production, disease control and marketing.

June 19-21 will be Garden Days, when visitors will have an opportunity to inspect the gardens at Penn State, and see experimental work in progress. They will also have an opportunity of inspecting the famous Penn State rose garden and other flower gardens, as well as the vegetable gardens.

Further information on any of these activities may be secured from County Agent L. C. Dayton at the office of the Lawrence County Agricultural Extension Association in the Post Office building.

New Electric Computer Speeds Compiling Facts

PHILADELPHIA, June 15 —(INS)—The U. S. Census Bureau dedicated an amazing new electronic computer which is expected to help speed the nation's defense mobilization.

In dedicating the new universal automatic computer, known as Univac, Dr. Roy V. Peel, director of the Census, declared:

"The success of the programs of the National Production Authority depend in no small measure on the speed and efficiency with which the Census processes reports on our economy for that agency."

Dr. Peel, pointed out that Univac's aid in quickly compiling population statistics is urgently needed for establishment of war manpower policies, operation of plant location programs and civilian defense work.

Watches Machine Work

The Census director watched Univac put to work producing statistics from the 1950 census, including summaries for Monroe County, Ia.; St. Helena Parish, La.; and Winchester City, Va.

Univac, which costs a minumum of $600,000 completely installed, occupies floor space only 14½ feet long and 7½ feet wide and stands eight feet high.

The device, developed by Prof. J. Presper Eckert and Dr. John W. Mauchly, of Phliadelphia, operates through the coordinated functioning of 4,500 electronic tubes.

Univac also possesses a "mercury memory" in which can be stored for future use tens of thousands of electrical impulses.

In the demonstration, the inventors showed that Univac takes only one-sixth of a second to "digest" census information about one person.

They explained that when Univac has completed its tabulations for a city or county, it records the answers on magnetic tape. This tape is then taken to an auxiliary uniprinter which types the statistical data.

Census officials said, however, that even at the rate of one-sixth of a second per person, a single Univac would take too long to tabulate census information for the nation's 150 million people.

These officials explained that most of the census tabulating for 1950 still will be done through use of punched-card equipment similar to that developed at the Census Bureau half a century ago.

St. Vitus School Installs Officers

Installation of new officers for St. Vitus school took place recently in the school room.

They are: president, Mrs. Helen Maciarella; vice president, Mrs. Phil DeFiore; treasurer, Mrs. Virginia Dambrocia; secretary, Mrs. Grace Staph; social committee, Mrs. Teresa Casalandra; reporter, Mrs. Anna Ginocchi; campaign committee, Mrs. Eva Scungio.

Refreshments were served later by the mother of the children in kindergarten. During the program an address was given by Rev. Fr. Albert M. Inteso.

Aly Khan's Father Reportedly May Try To Talk With Rita

PARIS, June 15.—(INS)—Paris sources say that the Aga Khan will sail for the United States on Saturday and may try to see Rita Hayworth who is seeking to divorce his son, the Aly Khan.

Miss Hayworth is living in Nevada.

The Aga Khan, wealthy Moslem potentate, is said to be greatly upset by the couple's estrangement.

The Aly Khan is to visit Norway next week. Negotiations are continuing regarding a trust fund Miss Hayworth wants settled on their daughter Yasmin. She has been reported asking $3,000,000.

'Perfect Secretary' Files For Divorce

BRIDGEPORT, Conn., June 15.—(INS)—Mrs. Marta Brodie Davis, once the "perfect secretary" to Charles A. Lindbergh, filed suit for divorce in Bridgeport superior court Thursday against Edward Davis II, famed architect and designer.

Mrs. Davis, who was selected by Lindbergh in 1942 as the "perfect secretary", charged her husband with cruelty in that he scorned her interest in amateur psychiatry. She said he tried to force upon her an interest in architectural design.

The couple met when Davis was commissioned to design the Lindbergh home in Scott's Cove, Darien, in 1943.

'SNOW WALL' RECALLED

BOSTON—Old papers refer to January 19, 1810, as the day of the snow wall. The temperature fell from unseasonal heights to below zero so rapidly that observers reported the fog over Boston Harbor congealed into fine snow which had the appearance of a wall 40 feet high.

Indians Lose To Erie, 7-1

Butler And Toles Account For Run

(Special To The News)

ERIE, June 15.—Keith Nicholls, making his first start in organized baseball, last night effectively scattered nine hits as Erie defeated New Castle, 7-1. An Ainsworth Field crowd of 678 witnessed the Sailors eighth triumph without a loss over the Indians.

Nicholls, fresh out of Edinboro State Teachers college, used an assortment of pitches to strike out 11.

The 21-year old Nicholls lost his shutout in the eighth frame when Chet Butler drove a deep double into centerfield with two away. Right fielder Ted Toles followed with a single to right, Butler scoring.

Catcher Bill Horne singled through the box after Toles but Nicolls rose to the occasion by whiffing pinch hitter Lavigne.

Three Run First Inning

As for the ball game, Erie wrapped it up in the first with a trio of tallies.

Pete Peatros walked and went to second on Willie Grace's single. The bases were jammed when Jack Byers worked Ken Geer, the loser, for a free pass. Bob Lilko was a strikeout victim but Eli Russo walked forcing Peatros across with Erie's first run. Pete Franczek, who had three for three during the fray, poked a single into left plating Grace and Byers.

With catcher Al Pobiak at the plate Russo, who was on third, and Franczek tried a double steal and Russo was called out at home. Pobiak protested so violently that he was given the "heave ho."

Geer Chased

The Sailors got three more in the second, knocking Geer out of the box in favor of Stan Zedalis. Stan Retiring the side.

Zedalis was nicked for a run in the fourth when Peatros tripled and Grace singled. He was lifted for a pinch hitter in the eighth and Bill Ciske wound up New Castle's mound chores.

HERE and THERE IN SPORTS LAND

TONIGHT AT FLAHERTY FIELD folks will have the pleasure of seeing in person the man who dispenses humor, plus information concerning pro grappling, and of whom, it may be truthfully recorded, has done as much, if not more, than a majority of catch-as-catch-can performers to popularize wrestling. He is Wayne Griffin, Chicago TV announcer, who injects humor into his narration of bouts. . . . A local fisherman is trying the electric rod treatment on worms. Tiring of tramping through a rear yard to catch night-crawlers, he pokes an iron rod, with a wood handle into the ground which causes the worms to emerge to the surface. He reports that the worms nearest the electrified rod swell up and do not live as long as those caught farther away. . . . Fishermen will get away to hook bass Sunday in Lake Erie.

—o—

CONSIDERED through as a big leaguer after long service with the Yanks and Indians, Joe Gordon, the second baseman, is leading the Pacific Coast league in home runs with 16 as playing manager of Sacramento. . . . One reason the Browns and A's, each of which could use a third sacker, passed up the Yanks' Billy Johnson, is believed to be Bill's reported $18,000-a-year salary. . . . J. J. Amiel, owner of the Derby winner, Count Turf, has another colt in his stable which may be better than Count Turf. . . . He is Count Flash, a two-year-old, also by Count Fleet. . . . He cost $4,500. . . . When Nelson Fox, Chicago infielder, smashed a homer it was his first in the majors. . . . Penn State will hold a football clinic on the campus August 13-15. . . . Gyrations from the sidelines as practiced by Bob Henard in Evanston, Ill., high school have helped him become the No. 1 broad jumper on the University of Iowa squad. . . . Orestes Minoso, now with the White Sox, played all positions in high school and sandlot ball in his native Matanza, Cuba. . . . Forty members of the 1951 University of Kentucky spring football squad hail from out of the state. . . . Lou Boudreau teams up with Walt Dropo as roommates this year with the Red Sox. . . . Weight of a trotter's shoes range from 6 to 10 ounces. . . . Michigan State's football team may line up with twins at the flanks next fall. . . . Bob Carey is the left end and his brother Bill has been switched from quarter to the other end. . . . Last three National league pennants have been won by "S" men. . . . Southworth, Shotton and Sawyer.

RM's Forfeit To Teamsters After Dispute With Ump

Teamsters at Cascade Field were last night awarded a forfeit win over Ross-Morelli to initiate the second half of the city softball league.

Ross-Morelli had refused to comply with head umpire Bird Riley's directive to continue playing, following a dispute with the score tied at five, in the eighth inning.

At the time Riley awarded the game to the Teamsters, the first half league winners had the bases loaded with only one out.

Chris Demos was driven off the mound in the sixth, and reliefer Embroski, who pitched hitless ball the last two innings, was given credit for the Teamster win.

Ross-Morelli starter Suzow was batted out in the first, and Spanish who relieved him, was replaced by Tuscano in the sixth. Spanish was the loser.

DiGennaro, DeJoseph and Mooney for the Teamsters, and DeVitto, Conti and Richards for Ross-Morelli were the games heavy hitters.

LICENSES

NEW YORK—(INS)—All those old bromides about women drivers ignore some important statistics. So claims Carol Lane, Women's Travel Director for a national oil company. Trading Deadline In Majors Today

Yankees Seeking To Obtain Garver

NEW YORK, June 15.—(INS)—The trading deadline hits the Major Leagues at midnight tonight and the question is "whither Ned Garver?"

Garver, the pitching staff of the otherwise from-hunger St. Louis Browns, is probably the biggest item on the trading mart. And today will be the last day for the Yankees, who want the righthander so very very much, to swing a deal for his services.

The 25-year-old Brownie workhorse has won nine games while losing three for the lowly Misery-Ans. And the brothers Dewitt have informed anxious Yankee negotiators that the Empire State Building wouldn't be enough for his contract. They want players, young ones and lots of them.

The Yankees, who are angling for a fourth starting pitcher, are also said to be interested in Washington's southpaw Bob Kuzava.

Hurls No-Hitter, But Loses Game By Score Of 2-0

HARRISBURG, June 15—(INS) — Righthander Jerry Minton pitched a no hitter last night with the help of the umpire and the official scorer, but lost the ball game 2-0 to the Harrisburg Senators on Island Park field.

Minton was hurling faultless ball into the last of the sixth when Second Sacker Don Burson rapped a Bobbler.

Third Baseman Paul Demont fumbled and made a late throw to first base and official scorer Buck Jones signaled a hit.

After the game, Salisbury Manager Bunny Griffith claimed it was an error and base umpire John Fazio agreed, but pointed out he had no official voice in the matter, so Jones reversed his decision and credited Minton with a no-hitter.

However, Harrisburg won the Inter-State Baseball league game on a series of the Maryland team's errors.

Hillers, Brookers And Volant At Home In North County

Eden-Hillers, East Brook and Volant are scheduled at home tonight in the North County Baseball league. Pulaski is at the Eden-Hillers field, St. Lucy at East Brook, and New Wilmington at Volant.

Pulaski leads in the Eden-Hillers series 2-1 to date, East Brook holds the same margin over St. Lucy, and New Wilmington the same over Volant.

League Shorts

New Wilmington has won its last seven starts in the league . . . First half of the season's play will be completed with next Wednesday's games . . . Glenn Wilson of East Brook has struckout 51 batters to date to lead the league in that department . . . Kuklinka of Pulaski is next with 34.

Re-Schedule Fast Card At Canfield

CANFIELD, O., June 15.—The stock car races at Canfield which were rained out last Wednesday night have been re-scheduled for Saturday night, June 16th, when the same large field of NASCAR stock cars and drivers will take Starter Dusty Rhodes' green flag.

The eight event program will consist of the helmet dash, four heat races, the Australian Pursuit, the Semi-Final and Feature Events. All races will be run with reverse starts. The fastest car in the last position and the slowest car taking the pole position.

The action at the Canfield track is fast and furious, with the finest array of talent in the tri-state area competing for top money.

Ready To Pay Chandler Off

Major Leaguers Complete Action

NEW YORK, June 15.—(INS)—The official announcement of baseball commissioner A. B. (Happy) Chandler's resignation and the date it will become effective is expected to be made today.

A joint statement is expected from the American and National League offices after the "lame duck" commissioner is reached and informed of the vote of the 16 club owners okaying the terms of his severance contract.

Will Pay Salary

Chandler was unavailable yesterday when the owners met in New York and reportedly agreed to pay out the rest of his $65,000 a year contract which expires in May, 1952 and to absolve him from any liability in connection with suits pending against baseball.

They tried to reach him by phone but he was on his way to Knoxville, Tenn., for a speaking engagement. Warren Giles of the Cincinnati Reds was delegated to get in touch with Chandler today and inform the commissioner of the action of the club owners.

White Sox Down Senators Twice, Seek Road Record Tonight

Meet Athletics In Twin-Bill

Dodgers-Giants Keep On Winning

By HOWARD SIGMAND
(I. N. S. Sports Writer)

NEW YORK, June 15.—The pennant-hungry, win-happy, league leading White Sox go record-seeking tonight.

When the Chicagoans pay a call on the Philadelphia Athletics in a twilight-night Shibe park double header they have a chance to tie and break the American league record and a chance to tie the major league mark for consecutive wins on the road.

The major league record is 17 straight and it was set by the Giants back in 1916. The American league standard is 16 in a row racked up by Washington in 1912.

White Sox Win Two

Now, along comes the 1951 White Sox with 15 straight on foreign terrain and still going strong. The road-winning wonders have yet to lose a game in the east this season.

They made it four in a row on their latest win tear last night by sweeping both ends of a twilight-night doubleheader from the Senators, 8 to 7 and 14 to 5.

Increase Lead

The double triumph lifted the Windy City whizzes to four and a half games ahead of the New York Yankees, whose game with the St. Louis Browns was rained out.

The Detroit-Boston game was washed out and in the only other American league game played the Cleveland Indians downed the Athletics, 3 to 1, on the six-hit hurling of Bob Lemon.

Hodges Hits 20th

The Brooklyn Dodgers won one the hard way yesterday to stay six games ahead in the National league. Gil Hodges' 20th homer of the season, with two out in the ninth and Duke Snider on first base, provided the Brooks with a 2 to 1 win over the St Louis Cardinals.

The Giants consolidated their hold on second place by thrashing the Cincinnati Reds, 11 to 6, with a 15-hit assault.

Pirates Top Braves

The Braves bowed, 9 to 4, to the Pittsburgh Pirates and Murry Dickson. The little righthander won his eighth game of the season as his last place teammates sewed things up wtih a five-run rally in the fourth inning.

Wally Westlake was the batting star, driving in four runs with three hits, including his 16th homer of the year.

Dickson, who has lost five times, now has beaten every team in the league.

Kowalski Asks $150,000 Damages From Organized Baseball

CINCINNATI, O., June 15.—(INS)—A $150,000 damage suit against organized baseball's magnates was filed in the Cincinnati U. S. District court Thursday by New Castle Indians outfielder Walter J. Kowalski.

Kowalski, who charged that baseball's farm system was "a monopoly within a monopoly" that acted to keep him in the minors, said the system was in violation of the Sherman Anti-Trust act.

He named as defendants baseball commissioner A. B. "Happy" Chandler, both as an individual and as commissioner; George Trautman, of the professional baseball leagues; league presidents

New Castle Indians Star

Ford Frick and William Harridge, and the Cincinnati Reds and Brooklyn Dodgers Baseball clubs.

Claims Unfair Treatment

Kowalski, who played with Brooklyn farm clubs since he broke into organized baseball with the Lockport, N. Y., club in 1942, claimed he was kept on the unrestricted players' list by Brooklyn and thus kept from advancing to the major leagues.

The two-year army veteran said he asked for a $200 raise while playing with the Pueblo, Col., club and was refused. He then took his case to Chandler, but, he charged, the commissioner ignored his claim.

Currently Hitting .396

Kowalski, at present is hitting .396 to lead the New Castle Indians at bat, in 35 games. He has eight homers to his credit and 55 runs batted in.

Kowalski came to New Castle this year through the efforts of Al Scarazzo, in the deal that also brought Chet Butler, Don Lavigne, and Bill Ciske here from the 1950 Johnstown Johnnies. Last year Kowalski hit .344 for Johnstown, in 55 games. Previously to joining the Johnstown club Kowalski played with Greenville, South Carolina in the Class A South Atlantic league, and with Lancaster in the Class B Inter-State league.

In Erie With Indians

In 1947 Kowalski was with the Kingston club in the North Atlantic Class D league and batted .319. In 1948 he was with Three-Rivers in the Canadian-American Class C league and batted .352. In 1949 he was with Newport News in the Piedmont Class B league and batted .282.

With Kingston, Kowalski hit 24 triples to lead all minor league players in this department.

Kowalski is currently on the six-day road trip with the Indians at Erie and Niagara Falls. He rejoined the Indians yesterday after a trip to his New York City home, where he instituted the startling suit.

A sportsmen's syndicate has announced that it has a $150,000 kitty as a "starter," for staging a heavyweight championship fight between Ezzard Charles and Sugar Ray Robinson.

Four Men And Four Girls In Wrestling Bouts Tonight

Eight human, four of 'em males, and the others of feminine gender, will toss each other high, far and rough at 8:30 tonight at Flaherty field in a pro' grappling extravaganza which may attract 2,000, more or less, to eye these exhibitions.

The docket appears to be especially entrancing, in view of the presence of several nationally renowned wrestlers, the personable Wayne Griffin, Chicago TV announcer, plus four pulchritudinous young femmes who will display not only charms but also mat ability.

While generally, some regard catch-as-catch-can artists as behemoths, the truth remains that a large majority of grapplers are ex-collegians, suave in demeanor, and being blessed with Herculean-like bodies, plus wrestling ability, adopt pro' grappling as a short cut to wealth.

Noting this situation, the feminine gender invaded man's sport, and judging from the manner in which their exhibitions have been received, they're here to stay. In fact, some of 'em have prospered so magnificently they adorn themselves in choicest accoutrements and drive limousines.

The main setto scheduled is to be a test of brawn and skill between Jackie Nichols, who steps about a ring more like a boxer than a grappler, and Professor Roy Shires. They wrestled 60 minutes to a draw recently in Chicago and will try to settle the issue here tonight.

Bobby Ford, who in facial appearance, could be a collar ad, will take on Ruffy Silverstein, known not only for his ability, but also for his stamina. He has the faculty of being able to assimilate punishment, but usually, toward the fag end of a bout, comes through and wins.

The girls will pair off in a tag match, the winner of which will

JACKIE NICHOLS

be the team which wins two of three falls. Nell Stewart and Mae Weston will oppose Sheba Zenna and Adela Antone. All of them are lightweights, know their holds and are as adept as the males in mat artifice.

The Jefferson A. C. is promoting the spectacle, which will begin at 8:30 p. m.

Tony Razzano Named Assistant Football Coach At Sharon

Tony Razzano, former New Castle high school and Pitt football star, has been appointed assistant football coach at Sharon high school, it is reported.

Razzano will assist John Chickerneo, who has been named head coach at Sharon. Wilbur Forsythe, from Pitt, has also been named assistant.

Chickerneo was formerly Freshman coach at Pitt, where he was assisted by Razzano.

Westlake, Chambers Traded To Cardinals By Pirates Today

PITTSBURGH, June 15 — General Manager Branch Rickey—the David Harum of baseball—pulled a five-for-two deal today with owner Fred Saigh of the St. Louis Cardinals and no one was yet ready to say who skunked who.

Rickey doled out pitcher Cliff Chambers and hard-hitting infielder Wally Westlake to the Cardinals for pitchers Howie Pollet and Ted Wilks, catcher Joe Garagiola, outfielder Bill Howerton and shortstop Dick Cole.

The Mahatma made the trade in New York and phoned the information to Pittsburgh for release. He said no money was involved.

Snead Leading National Open

Snead Low With 71 Card First Day

By CHARLES EINSTEIN
(I. N. S. Sports Writer)

BIRMINGHAM, Mich., June 15.—A bleary-eyed conga line of 160 golfing greats, led by a jinxed mountaineer named Sam Snead, wobbled into today's second round of the U. S. open championship over a golf course that seemed to move whenever they tried a shot.

In bold relief atop the scoreboard at Oakland Hills sat the figure 70—par for the 6,927-yard chasm. Back of par came a lone 71, the first-round concoction of Mr. Snead, who was working on a blazing 67 yesterday until he found out this golf course hits back.

Hogan Has 76

Two guys—Al Besselink and Clayton Heafner—had 72's. Ten others, including the great Bobby Locke (nicknamed Sandman in fealty to his repeated visits to the traps), had 73's. There were 13 74's, 13 75's, and a weighty quorum of 76's, the last-named company including defending champion Ben Hogan.

Hogan was one of the great, dismal mob who treated themselves to 6's on the 459-yard, par-4 18th, a finishing hole shaped like a diseased elbow. Jim Ferrier, with another 6, threw his club into a sand trap and called the course "the worst I ever played in a national open".

Little Big League Baseball Activities

HURLS NO-HITTER

Dick Conrad, pitcher for the First Ward team of the Little Big league, hurled a no-hit, no-run game against the Sixth Ward Thursday evening at Lee avenue in a practice game, with the First Ward winning 1-0.

The First Ward collected only three hits from the Sixth Ward hurlers. These were made by Pete Leonard, Danny Bubnik and Gary Rogan.

Manager Tom Cook of the Firsts has called for a practice session Saturday at 2 p. m. at the Laurel playground.

Marietta Regatta Carded Saturday

MARIETTA, O., June 15—(INS)—Maritta, the Ohio river town of 15,000 trees and 20,000 excited citizens, echoes with the sound of splashing oars today as four college shells launch the annual "pickle race".

The unofficial mock race by crew substitutes and a few regular competing oarsmen prefaces the 49th intercollegiate rowing regatta to be stroked off tomorrow by 23 crews from 13 schools.

Tanner Among Top Twenty Batters In Southern Association

Chuck Tanner is among the top twenty batters in the Southern Association.

The New Castle sandlot product, now a member of the Atlanta Crackers, is batting .320 for 41 games in the association and has moved into the circle of batting leaders to 16th position.

Despite an unbroken 12-game hitting streak, he was recently benched to make room for Stan Hollmig who had just reported from Baltimore.

Louis-Savold Fight Tonight

NEW YORK, June 15.—Joe Louis and Lee Savold, chased indoors by the weather after two Polo Grounds postponements, will meet tonight in Madison Square Garden in a 15-round match expected to produce a challenger for heavyweight champion Ezzard Charles.

Unless both fighters are so utterly inept that they will eliminate each other—a possibility in the eyes of some expert observers—the winner will meet Charles in September for the crown he claimed by outpointing Louis.

No New Weigh In

The switch from the Polo Grounds to the Garden for this battle of the aging gladiators was expected to enhance the gate receipts if for no other reason than that uncertainty over prevailing weather is eliminated and the new site is more accessible.

There will not be a second weigh-in and thus Louis will officially enter the ring at 211¼ and Savold at 190, their weights last Wednesday at noon.

More Reds Are To Be Indicted In New York

NEW YORK June 15.—(INS)—A federal grand jury in New York is preparing to indict another group of upper-echelon communists, probably next week.

The forthcoming indictments are seen as part of a nation-wide drive against communist leaders in America as a direct outgrowth of the supreme court's decision upholding the constitutionality of the Smith act.

International News Service was informed by sources close to the investigation today that the new indictments in New York will follow closely the pattern established by the conviction of the 11 top communists.

The top 11 were convicted of conspiracy to advocate overthrow of the government by violence, in violation of the Smith act.

It is expected, investigators said, that the group to be indicted in New York will be the first of several groups in this and other areas of the United States to be accused.

Officials in charge of the New York investigation would not, of course, comment on what action the grand jury plans.

Roy Cohn, confidential assistant to U. S. Attorney Irving Saypol, told INS:

"All I can say is that the grand jury is sitting and that evidence is being presented."

Other sources said, however, that most of the evidence is in and that the grand jury is ready to act.

When the indictments are returned FBI agents will have the task of rounding up and arresting the accused.

Edward M. Bryant Dies At Long Beach

Masonic funeral services for Edward (Ned) M. Bryant, 4515 East Second street, Long Beach, Calif., former local resident, were conducted from Mottell's chapel, Long Beach, on June 7 at 3 p.m., according to a message sent to this city by Alf Williams, Long Beach.

Mr. Bryant, a member of the William McKinley Camp 23, United Spanish War Veterans, died June 3, at the age of 81 years in a Long Beach hospital. He left for service with the local Spanish War Veterans. While residing in New Castle, he was affiliated with the steel mill.

Mr. Bryant, a native of Hartford, Conn., lived for several years in New York City, Columbus, O., and Chicago, moving in 1921 to Long Beach, where he was engaged in the manufacture and sale of Vitrolite. He was a member of the Lodge of the Craft, No. 433, F. and A. M., this city.

His widow, Grace Bryant, survives.
